Charging the batteries

- 1. Insert the USB plug into an indoor USB power supply, and then connect the battery compartment to the charging cable.
- A full charge takes 90 minutes. When charging the LED indicator turns into red, when charging is complete ,the LED indicator stays off.
- 3. Regularly inspect the toy, battery charger, charging cable, connectors and other components for signs of damage. In the event of any damage, discontinue use and send the parts for repair.

Calibrating the vehicle

Instructions:

 Check that the ON/OFF switch is in the "ON" position. The vehicle will not respond to the remote control when the switch is in the "OFF" position.

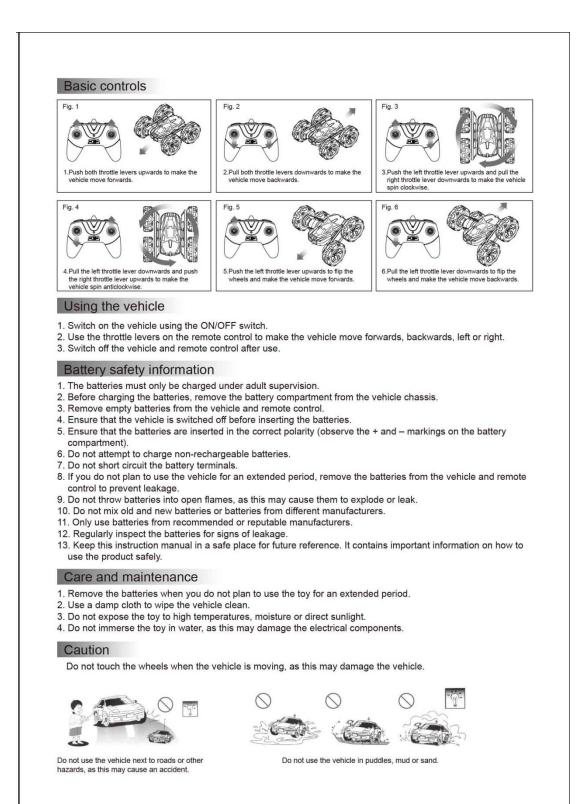

Inserting the battery

compartment into the vehicle

Inserting the remote control batteries

- 1. Observe the polarity markings on the battery compartment to ensure that the batteries are inserted in the correct polarity.
- 2. Attach the cover to the battery compartment as shown in the diagram below.
- Insert rechargeable batteries into the battery compartment.
 Use a screwdriver to secure the battery CDEA

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.
