Subject: Administrative Review of QVCCMDAZ8841A Metrak #13761

Hi Izumi,

The only issue that I see, and again this is not holding up the technical review, is:

1. label - it appears that there is room for the 15.19 statement to be on the label. I realize that it is in the manual. Does the client feel it cannot fit on the label? If this is the case, please submit a separate "request" explaining this judgment call so that we may submit it as an exhibit.

Thanks Izumi, and as I said, I forwarded everything to the reviewer yesterday. We will keep you posted as to the progress.

Regards,

Marianne
