Safety Precautions

Protect the product from high humidity, dirt and dust, and direct sunlight.

Do not try to dismantle, repair, or modify the product.

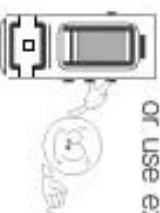

Do not apply excessive force to or place any heavy object on the product.

Do not let the product come into contact with chemicals such as benzene or paint thinner etc.

Avoid places with high or low temperature and high humidity.

Do not press two buttons simultaneously, or use excessive force.

Be aware that if you fall with the player in your pocket it may cause injuries.

Be aware that the neck strap may break if too much force is applied to the strap, or when exercising vigorously. If this occurs the player may fall and break or cause injuries.

When using the neck strap take care that the strap does not get stuck in doors, elevators, etc.

MP-510 Series User Manual

Note for Battery and Charger

Make sure to charge the battery for use after purchase of the product. (See pages 08)

Never disassemble the battery or charger.

Store the battery and charger below 45°C. (i.e. 113°F)

0°C ~ 45°C

Charge the battery at the ambient temperature of 0°C to 45°C.

Keep the charger away from water.

Keep your hands off the inside of the charger.

Please do not open the case of the charger

Use the charger indoors only.

MP-510 Series User Manual |

Product Characteristics

- ▶ **Multi-Codec Player**
Supports MP3, WMA, ASF (Music files only), WAV format digital audio files.
It also supports all bandwidths of MP3 and WMA.
- ▶ **Firmware Upgrade**
Supports continuous functional updates, modification, and upgrades for the player.
- ▶ **Lyrics Support**
Provides a Lyrics download and edit function.
*This Menu may not be supported in the country that does not support Downloading
Lyric automatically on the Internet.
- ▶ **Supports USB2.0 High Speed**
Supports USB 2.0 interface enabling high-speed file transfer.
- ▶ **3D Sound Effect**
Supports dynamic sound effects and 3D sound through SRS WOW
- ▶ **Automatic folder search, Playback type function select**
Playback list function enables dynamic methods for playing
- ▶ **Automatic FM frequency detection**
- ▶ **2 color OLED**
- ▶ **Supports lyrics display and ID3 Tag**
- ▶ **Windows Media Player Plug-in support**
- ▶ **GUI (Graphic User Interface) support**
Supports GUI and various functions (sleep, repeat)
- ▶ **Supports user EQ**
- ▶ **Multilingual Menu support**
- ▶ **Multiple language support (Unicode 2.0 Standard)**

MP-510 Series User Manual

Charging with a USB Cable

Use a USB cable to connect the MP-510 to a PC and leave it connected for 90~120 minutes to completely charge the device. The LED turns on during charging and turns off again when charging is complete.

Make sure to disconnect the device from the PC after charging.

Charging with a USB Adaptor

Connect the MP-510 to the adaptor and leave it for 90~120 minutes to charge the device completely. Please disconnect after charging.

※ Caution

The Adaptor output must be 5V, 500mA~2A.

Fire, explosion, or leakage may be caused if output differs from the specified values.

Re-chargeable Battery Maintenance

- ▶ The product has a built-in re-chargeable battery. Keep the product indoors.
- ▶ Dismantling the product and damaging the re-chargeable battery, or placing it near a heater may cause an explosion. Allowing any metal to make contact across the battery terminals may cause a short circuit and explosion.
- ▶ Charge the device before putting the product away for a long time. Recharge the device fully before re-use.
- ▶ Re-chargeable batteries are consumable items, and their usable life shortens with time.
- ▶ Keep the product away from children and animals since there is a danger of explosion if mishandled.

MP-510 Series User Manual

Connecting to a Computer (PC)

Note

Installation of software is required for Windows 98 before using the product with the USB drive. Update Windows when the USB drive does not operate in Windows 98/ME/2000/XP systems.

Windows Update

Click on the [Start]->[Windows Update] to update Windows to the latest version.

MP-510 Series User Manual

Installing MP-510 Software

Screen, as shown in the picture, appears when the downloading of latest installation software has been completed.

MP-510 Series User Manual

Clicking on the Next button brings up the user terms as shown below.

Click on the Yes button if the user terms are acceptable.

MP-510 Series User Manual

Designate the folder to install the program.
Click on Next.

Input the desired program name in
the program list. Click on Next.

MP-510 Series User Manual

Please wait while the program installs.

Click on Finish when installation is complete.

※ Caution

The computer has to be re-started after installation. (For Windows 98/ME)

MP-510 Series User Manual

Connecting to a PC

Minimum PC Requirements

- Pentium 133MHz or above
- 30MB HDD space or more

- Windows 98/ME/2000/XP
- CD-ROM Drive

- USB port

Using USB

Open the MP-510's protective USB cover and connect the cable.

MP-510 Series User Manual

Using MP-510
(Descriptions are based on Windows XP)

Connecting MP-510 to a computer would automatically detect it as a portable storage device and it may be used like a hard-disk drive. As shown in the above picture, a new window appears when the computer automatically detects the device. The folder in above picture is the space provided for you to store resources.

MP-510 Series User Manual

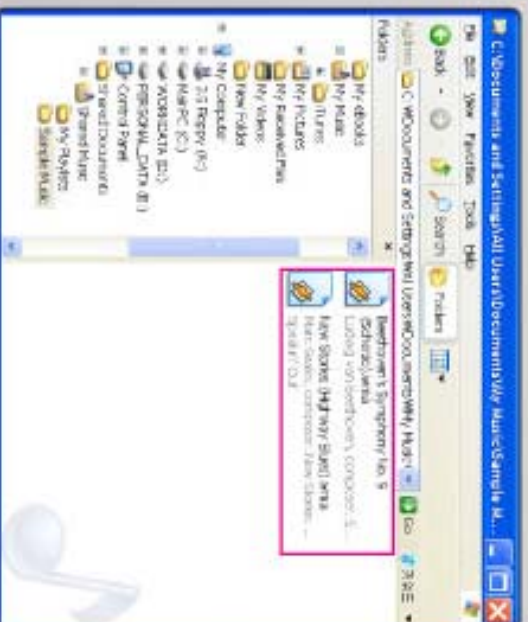

Click Start → All Programs → Accessories → Windows Explorer

MP-510 Series User Manual

Copy files from folder in your PC.

[Select the files to copy and press (Ctrl+C) or right-click and select Copy option]

Click My Computer, and then double click on Portable Storage Device

MP-510 Series User Manual

Create folder within the portable storage disk

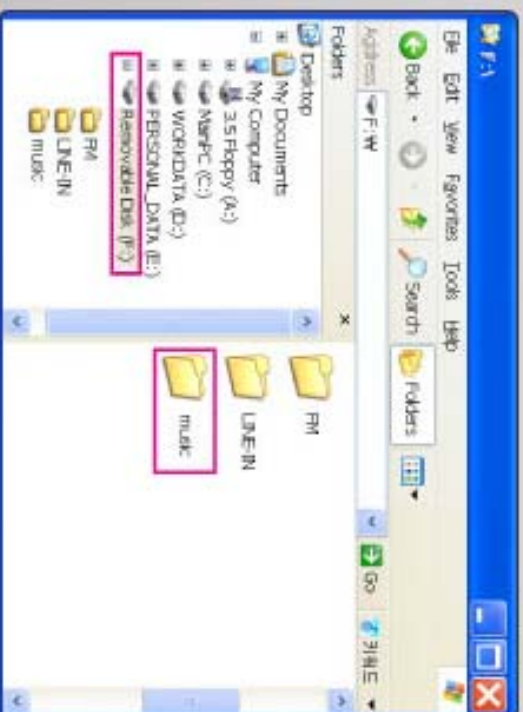

Right-click on the mouse and then select New

Folder option

Change to a desired file name ->

Double click on the created file to open folder

Press (Ctrl +V) or right-click to select Paste option.

Verify that files stored in your PC have been safely copied to the portable device.

MP-510 Series User Manual

Removing the MP-510 Safely

For Windows ME/2000/XP Users

Select and click on "Remove USB Drive" in the System Tray. A message appears on the screen informing the user that it has been safely removed. Then remove the MP-510

For Windows 98 Users

Close all MP-510 related windows.

Data is still in transfer if the blinks on the LCD screen. Remove the MP-510 when data transfer is complete and the no longer blinks.

MP-510 Series User Manual

Formatting the MP-510

Use the following method to delete all the contents of the MP-510

※ Caution

Back-up important data before formatting. Data cannot be recovered after formatting.

Open	
Explore	
Search...	
Sharing and Security...	
Format...	
Eject	
Cut	
Copy	
Create Shortcut	
Rename	
Properties	

Press [Start(S)] to run Format.

Note – Selecting NTFS for the file system will not operate format accurately.
The type of setting is not required in Windows 98

MP-510 Series User Manual

Using the MP-510

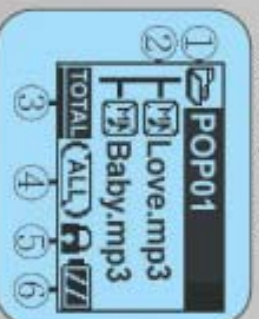

Please bear the following information in mind in order to use the 'MP-510' efficiently.

1. Place non music files in the Data folder.
=> 'MP-510' searches through all files except for files in the Data folder during booting.
Therefore a large number of files would slow down the booting process.
2. Numbering the songs (entering numbers in front of the song title) enables the user to listen to the songs in order.
=> It is convenient to playback and manage files if song titles are numbered 01, 02, 03, etc. in front of the song title.

MP-510 Series User Manual

Basic Function

Power on

Press the MP-510's playback button.

Power off

Press the playback button for 3 seconds.

Alter mode (Music/Voice/FM/LINE-IN)
Press and hold the MP-510's mode button.
Move the cursor to the desired mode in the mode screen and press the Menu/Mode button to alter modes.

Lock function

This function is to prevent operational error due to user mistakes. Displays the  icon in the LCD when the lock button is set to the locking position and all buttons are disabled.

(Press the volume button.)

MP-510 Series User Manual

Navigation During Playback

Function to search for other songs during playback. Press the menu button during playback to bring up the navigation list. Then, select desired song and press the menu button to play the selected song. To cancel the navigation mode, press the playback button to return to the playback screen.

Listen to Music

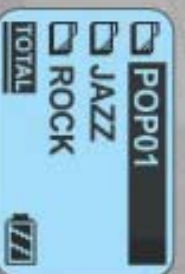

Search by folder

When searching for music files, press the search button to search by folder.
Note – Moves to the next/previous music file when the folder is not available.

Playback/Stop – Press the MP-510's playback button.

Open/close folder – Press the center menu button with the cursor on the desired folder.

MP-510 Series User Manual

Search Current Music

Press and hold the search button to search within the current music.
Holding the button longer increases the searching speed.

Change the Playing Music

Pressing the search button operates as described in the following table.

	Pressing time	Function
Search(>>) button	Before 5 seconds of playing	Plays previous song
	After 5 seconds of playing	Plays current song
Search(<<) button	Anytime	Plays next song

Section Repeat

*Select On from the Mode-Key menu to use the Section Repeat function.
Press the mode button, (marked **A**)
Press the mode button, (marked **AB**)

Press the mode button to stop Section (from A to B) Repeat.

*The Section Repeat function repeats for at least 2 seconds duration.

MP-510 Series User Manual

Switch To VOICE Mode

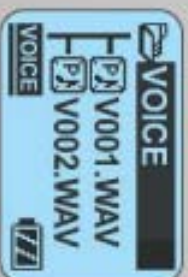

Press and hold the mode button to bring up the mode change screen.
Select VOICE from the screen.

Press and hold the record button in VOICE mode.
*Press the record button again to stop recording.

Playback Recorded Voice
Open a folder by pressing the section menu from VOICE.

Select the desired file using the volume button and press the playback button.

Note

The Playback method select function and SRS functions are not available in VOICE mode.

MP-510 Series User Manual

Switch To FM Mode

Press and hold the mode button to switch modes and listen to radio.

SEEK is displayed at the bottom of the LCD panel in SEEK mode.

Search Frequency

Pressing the search button moves frequencies by intervals of 100Hz.

Pressing and holding the search button automatically searches for the next available frequency.

* MONO/STEREO displayed at the bottom of the screen is determined automatically according to the signal received.

Storing a Frequency to a Channel

Pressing the menu button moves to the next channel.

MP-510 Series User Manual

Select the channel to store the frequency and press the Record button to store.
* Automatically becomes P-SET mode after the storing procedure is completed.

Switch to P-SET mode

Pressing the playback button from SEEK mode switches modes to P-SET mode.

* The user can listen to the radio by searching through the stored channels in P-SET mode.

Search Stored Channel

Use the search button to search through the next/previous channels.

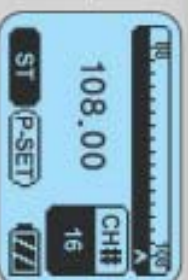

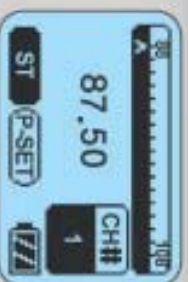

Automatic Channel Setting

The Automatic Channel Setting function automatically searches for 16 available frequencies and stores them as channels.

Switch to P-SET mode (Displays **P-SET** at the bottom).

MP-510 Series User Manual

Pressing the Record button automatically searches and stores 16 channels.
※Use the earphones when searching through FM.

Recording FM

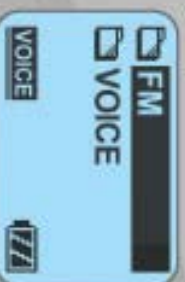

Press and hold the record button in FM mode.
* Volume control is disabled during recording.

Playback an FM recorded file

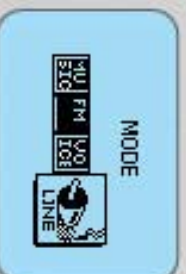

Press and hold the mode button to switch modes to VOICE mode.

Select the desired file within the FM folder for playback.

MP-510 Series User Manual

Switch To LINE-IN Mode

Press and hold the mode button to switch to LINE-IN mode.

Recording Standby Screen

LINE-IN Recording Screen

Press and hold the record button in LINE-IN mode.

The recorded file is saved under the LINE-IN folder in MUSIC mode.

Menu Setting

Press the menu button to bring up the menu screen. Pressing the menu button in the menu screen selects the desired menu. To return from the menu screen, press and hold the menu button or select the Return menu.

Note

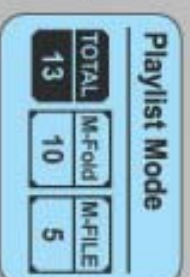

It automatically returns to the previous mode when no action is taken for 10 seconds while in the menu screen. A different menu list is displayed for different modes (MUSIC/VOICE/FM/LINE-IN).

MP-510 Series User Manual

Marking a File/Folder

Move the cursor (highlight) to the desired file/folder and press the record button to mark the file or folder.

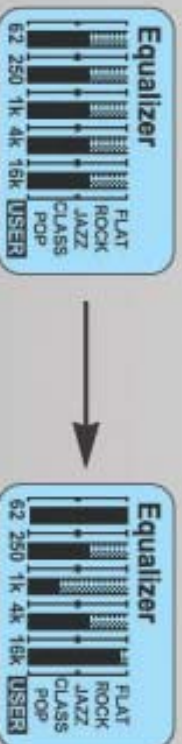

MP-510 Series User Manual

Use EQ to control and customize sound.

User EQ Setting

The user can control the output level for each frequency bandwidth to customize sound according to taste. The MP-510 User EQ divides sound into 5 frequency bandwidths and enables the user to control the level from +10dB ~ -10dB.

Use the menu and search/volume buttons to control setting.

WOW Labs SRS Setting

The following menu is available in the menu screen if SRS, TruBs, and WOW is set (displayed at the bottom of the LCD) Adjust the SRS, TruBs, and SPK values to customize the sound.

- SRS – Creates a 3D sound effect.
- TruBs – Supports low frequency sounds to create deeper sounds.
- WOW – Enables both the SRS and TruBs functions to create greater sound quality.
- SPK – Adjusts the sound effect depending on the speaker type used.

Value by Speaker	
40	Small earphones
60	Normal earphones
100	Small speaker
100 Above	Speaker

Note

SRS is registered to SRS Labs, Inc.
WOW is registered under license by SRS Labs, Inc.
EQ does not operate when SRS is active and EQ setting is not possible.
SRS setting is possible only in music mode when the SRS function is active.

MP-510 Series User Manual

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRE OPERATION.

NOTE: THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help
