Ref: FCC Class III Permissive change for FCC ID: QWP-50650

Applicant: as above

Dear Examiner,

This is a request for a Class III permissive change to FCC ID: QWP-50650.

The change filed under this application is:

The addition of the Part 15E UNII-1, 5150 – 5250 MHz, frequency band to the existing SDR grant which covers compliance with Part 15C, 5725 – 5850 MHz, and Part 15E UNII-2A, 5250 – 5350 MHz and UNII-2C, 5470 – 5725 MHz.

Cambium Networks confirm that the same hardware revision of RF unit has been used in the original submission, subsequent permissive changes and this permissive change request. The only change applied to demonstrate compliance with the Part 15E UNII-1 band was a software upgrade.

An updated User Guide and RF Performance test report are supplied in support of this request.

Sincerely yours,

A handwritten signature in brown ink that reads "Donald W Reid".
