Re: Application for a Class II Permissive Changes to products FCC IDs: QWP58500

Piping Hot Networks Ltd. (a wholly owned subsidiary of Motorola, Inc) hereby applies for a Class II Permissive Changes for the two products referenced above. The change in each case is to add additional antennas to the list of approved antennas. The new antennas have less gain than those previously approved but the application but these are of a different type (see attached datasheet).

The application for the product remains the provision of fixed Point to Point radio links and Piping Hot Networks confirms that all other details on the product remain unchanged from those declared at the time of the original application.

Yours sincerely
