

DECLARATION

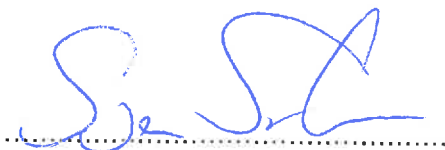

To whom it may concern

We, **peiker acustic GmbH**, hereby declare for the product "Wireless Charging Mobile Interface- WMI".

- The Power transfer frequency is 125kHz.
- The max power consumption is 9,25 watts/coil.
The device charges the mobile phone with a power of 5 watts.
- The transfer system includes 3 coils. This includes charging systems that have three coils and clients that are able to detect and allow coupling only between individual pairs of coils. (only one coil is active)
- Client device is inserted in or placed directly in contact with the transmitter.
- Portable exposure conditions with min. separation distance of 5cm
- The aggregate H-field strengths at 15 cm surrounding the device and 20 cm above the top surface from all simultaneous transmitting coils are demonstrated to be less than 50% of the MPE limit.
