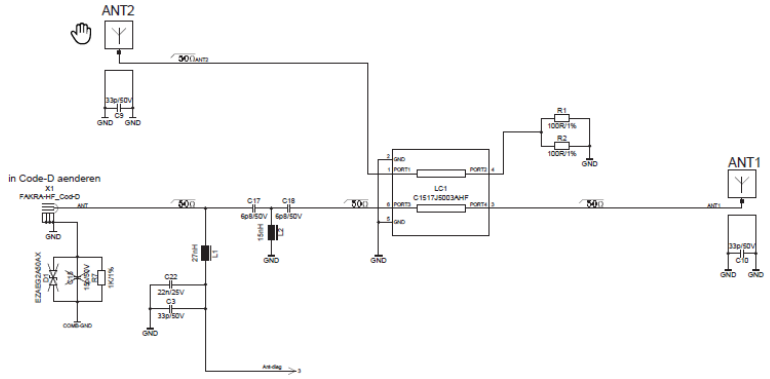
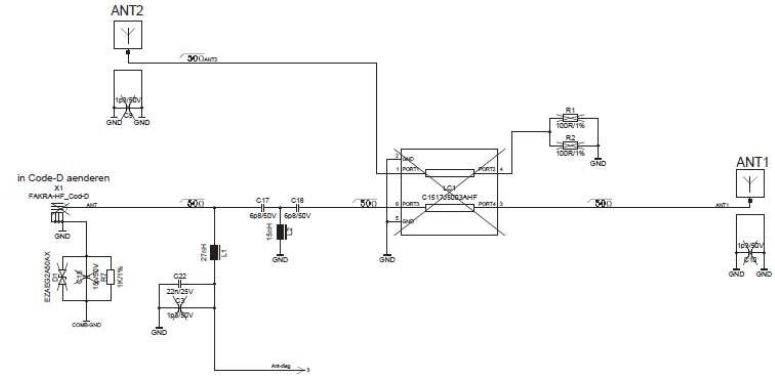
Difference between WMI2-W205 & WMI2-W205-M1

Basically the WMI2-W205 is the same like the WMI2-W205-M1 except the couple board assembled with less components (FAKRA / GSM Antenna connector and further passive components)

The difference in the hardware is documented with enclosed pictures. It shows the schematics difference. all other functions of WMI, layout and components are identical.



Above WMI2-W205 : Couple board fully assembled



Above WMI2-W205 M1: Couple board NOT fully assembled

Application software remains the same for both WMI2-W205 & WMI2-W205-M1.
