Dear Chris,

Please see attached file for block diagram and label location from our client.
Thanks

Best Regards
Alice

Alice, I have reviewed the above referenced application and find that the following items are needed to complete this application:

- 1) The label Location Photo exhibit shows a different style Walkie Talkie enclosure than is shown in the External Photos and Setup Photos. Please provide the corrected exhibit(s).
- 2) The Block Diagram has no frequency of operation (crystal) and seems to be for Remote Control, not Walkie Talkie. Please correct the Block Diagram.

Please provide the above referenced items so that processing of this application can continue.

Best regards,

Chris Harvey
