### Safety Precaution

Please make sure that you quit from the game before shutting down the Xbox® console or turning off the wireless game controller. Failure to heed this warning could result in temporary or permanent hearing loss or impairment to you or other users.

**WARNING:** DO NOT unplug the XA1 while the power of XC1 is still on. This may damage your XA1

### Features

Wideye™ XA1 Wireless Audio Communicator allows you to “Break Free” from the console and enjoy the freedom of talking, chatting and taunting other players while in an online game.

### Compatibility

Wideye™ XA1 is used exclusively with Wideye™ XC1 Wireless Game Controller, together

### Setting Up XA1 for Use

1. Insert the Controller Module into the expansion slot of your XC1 wireless game controller.
2. Connect your headset of your Xbox® Communicator Kit to the headset jack of your Controller Module.
3. Insert the Base Module into the XA1 slot of your XC1 Base Unit.
4. Insert the Xbox® Communicator module into the expansion slot of your XC1 Base Unit.
5. Connect the audio cable to the headset jack of your Xbox® communicator module.
6. Connect the XC1 Base Unit to the Xbox® console according to instructions on XC1 User Guide.
7. Turn “ON” the XC1.

### Troubleshooting

If you encounter difficulties installing or using your Wideye™ Audio Communicator, try the following troubleshooting tips:

**Problem:** The headset is not working.

- Tip 1:** Ensure that the headset cord is plugged into the headset jack of the Controller Module.
- Tip 2:** Ensure that the audio cable of the XC1 Base Unit is plugged into the headset jack of the Xbox® Communicator module.
- Tip 3:** Ensure that the red LED on the Controller Module does not lit; and that the volume levels of the Controller Module and Xbox® Communicator are adjusted to your comfort level.

**Problem:** The Wideye™ XA1 Audio Communicator does not seem to link properly.

- Tip 1:** This may be caused by frequency interference. Press the “Channel Button” on the XA1 Controller Module to switch to another channel.
- Tip 2:** With XA1 remains inserted, turn your XC1 Controller and Base Unit “OFF” and “ON”.

**Problem:** Online talk is not working in the game.

- Tip 1:** Not every game can be played online. Verify whether the game supports online play by looking for “Online” logo on the game box.
