RE:     DECLARATION OF ANTENNA USED IN **BluePendant-BP100**,  
          FCC ID: **QY9-AVBP**

---

The **Chip antenna** used in the **BluePendant-BP100** is connected to the main PCB via a PCB Micro Strip Line.

The antenna cannot be removed or replaced by user without taking the whole unit apart, and removing the printed circuits boards from the housing. In the course of doing that, it will void the service warranty provided by manufacturer, and might damage the unit if not careful.

The **Chip antenna** used is an **Omni-directional** antenna, manufactured by **Mitsubishi Materials Corporation**. The antenna carries the model number **AHD1403-244ST01** and has gain of **0dBd (Max)**.

Sincerely,
