## Class II Permissive Change

FCC ID: QYL7260NGW

We, **Getac Technology Corporation**, hereby declare that we are only and fully responsible for this CIIPC application of FCC ID: **QYL7260NGW** originally granted on **06/11/2014**. Now we would like to modify the authorized equipment for the below change(s):

- Update 5G Function under New UNII rule.

For detailed history of this FCC ID, please refer to the below table:

-	FCC ID	Date
Original Module ID	PD97260NG	04/17/2013
Change in Identification	QYL7260NGW	11/01/2013
Class II Permissive Chang (in host tablet PC, model: T800)	QYL7260NGW	06/11/2014
Class II Permissive Change of the Original Module ID (update to UNII new rule)	PD97260NG	05/12/2016

For further justification, since the testing of the original module is sufficient to this device under the evaluation according to KDB#996369 D01 test condition requirements, no further verification for the host device, product name: tablet PC, model: T800, will be performed this time. In addition, the radio module updated to the New UNII rule was already documented via CIIPC.

Except for the changes mentioned above, no other modification is performed. Also, the change does not have any impact on the approved radio parameter such as power, frequency range, modulation etc.

Should you have any questions or comments regarding this matter, please don't hesitate to contact me.

Sincerely,

**Celina Chen / Agency Specialist**

**Getac Technology Corporation**
