Date: August 27, 2015

Request for Limited Modular Approval for FCC ID: QYLRX10

Item	Requirements	EUT
1.	The modular transmitter must have its own	This module is limited to be installed in the specific
	RF shielding.	host, Getac, RX10.
2.	The modular transmitter must have buffered	The modular transmitter has buffered modulation
	modulation / data inputs.	data inputs.
3.	The modular transmitter must have its own	The modular transmitter has its own power supply
	power supply regulation.	regulation.
4.	The module must contain a permanently	The antenna of this module complies with the
	attached antenna, or contain a unique	requirement.
	antenna connector, and be marketed and	
	operated only with specific antenna(s).	
5.	The modular transmitter must be tested in a	The module conformance testing is performed in
	stand-alone configuration.	specific host, Getac, RX10.
6.	The modular transmitter must be labeled	The module transmitter will be labeled with its own
	with its own FCC ID number.	FCC ID, and for OEM integration the integration
		manual contains labeling instructions for the host
		device.
7.	The modular transmitter must comply with	The module approved transmitter complies with all
	any specific rule or operating requirements	applicable rules and the integration manual contains
	applicable to the transmitter and the	any specific requirements addressed to the
	manufacturer must provide adequate	integrator and/or to the end-user of the final
	instructions along with the module to	end-product.
	explain any such requirements.	
8.	The modular transmitter must comply with	The modular transmitter complies with the RF
	any applicable RF exposure requirement.	exposure requirement.

Effective Date: Immediately.
