### Module Approval Request

FCC ID : QYLV110N

\* Please provide a detailed explanation if the answer is "No."

Item	Modular requirement	Yes/No	Further information
1	The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly;	N	This module is limited to be installed in the specific host Getac V110
2	The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal;	Y	
3	The module must contain power supply regulation on the module;	Y	
4	The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b);	Y	
5	The module must demonstrate compliance in a stand-alone configuration;	N	This module conformance test is performed in the specific host Getac V110.
6	The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements);	Y	
7	The module must comply with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee;	Y	
8	The module must comply with RF exposure requirements	Y
