Regarding: Product include WLAN functions but PCB layout not change for FCC ID: QYLWP7601BC03

To Whom It May Concern,

We, Getac Technology Corp., declare on our role responsibility for the product of model BC-03.

The differences between, A product is only for WLAN function, another Product have WLAN and WWAN function.

According to KDB 484596 D01, "different devices may reference or reuse EMC and radio parameter test data from the application records of a similar device, for test reduction purposes."

In this case, Add WWAN function for business purposes from the original EUT (Original ID: QYLAP6255BC03), while the PCB layout and all other functions are unchanged.

Therefore, the current EUT (New FCC: QYLWP7601BC03) was assessed and the data can be reused. Please reference KDB484596 D01 for more information.

Except listings above, all others are the same as previous version.
All data will be reused.

For more details, please refer to the Reference section and the Spot check sections in the Reuse Data Test Report.
