Columbia, MD 21046
Ref: FCC ID: **QYXSW60** and **QYXSW65**

Dear Sirs:

Sabine, Inc requests acceptance of the labeling proposal described below for transmitters bearing FCC identifiers **QYXSW60** and **QYXSW65**.
The subject transmitters are compact models as shown in figures 1 and 2, authorized under 47CFR Part 15.

Figure 1

Figure 2

Because of both the limited space available on the exterior of the cases and the 'soft touch' paint used, which does not allow adhesion of labels, we propose attaching the FCC sticker to the interior of the battery compartment as shown below in Figures 3 and 4.

Figure 3

Figure 4

The consumer packaging for these models includes the batteries as separate items, NOT installed in the transmitters. As such, the FCC identifier will be readily visible to the user before the batteries are installed and whenever the batteries are removed or replaced. In this location, the label will also be protected from physical abuse and remain readable for the anticipated life of the device.

Sincerely,

Byra Ferkovich
Senior Engineer
Sabine, Inc
