Re: FCC ID: QZC-GNIC

To Whom It May Concern:

The following application is submitted on behalf of our client, Elster Solutions, LLC, for evaluation of their model GNIC, GNICNZ for a C2PC certification under FCC Part 15.247.

Application is a C2PC to add 3 new modes of operation to the filing. Modes are turned on by firmware with no hardware changes.

I have reviewed the application and supporting documentation and have found them to comply with FCC requirements. I recommend this application for certification.

Yours sincerely
