Re: FCC ID: QZC-ILC24F

To Whom It May Concern:

The following application is submitted on behalf of our client, Elster Solutions, LLC, for evaluation of their model ILC24F for certification under FCC Part 15.247.

The ILC24F module contains a frequency hopping spread spectrum radio operating in the 902.4 – 927.6 MHz ISM frequency band. The ILC24F forms a complete electricity meter when installed in a housing and meter base.

The ILC24F was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large, stylized 'R' and 'S'.
