Re: FCC ID: QZC-MRX2EA4

To Whom It May Concern:

The following application is submitted on behalf of our client, Elster Solutions, LLC, for evaluation of their model MRX2EA4 for single modular certification under FCC Part 15.247.

The MRX2EA4 Printed Circuit Board Assembly (PCBA) contains a frequency hopping spread spectrum radio operating in the 902.4-927.6 MHz ISM frequency band. It also contains circuitry for electricity metering. When the MRX2EA4 module is installed in a plastic housing it forms a complete electricity meter.

Radiated inter-modulation testing was installed in a typical host and performed for all combinations of simultaneous transmission. Radiated inter-modulation testing was found to be in compliance.

The MRX2EA4 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive, flowing style.
