FCC Correspondence 36816, dated December 09, 2008

To Whom It May Concern:

In correspondence 36816, dated 09 December 2008, the Commission asked for verification of an operating frequency range of 916.0 – 927.6 MHz and an output power of 0.22 Watts for the equipment referenced above. This letter is to verify that the above mentioned frequency range and output power are correct as stated in the original grant of certification for this equipment.

Respectfully,

John Holt
