Re: FCC ID: QZC-REXUANZ

To Whom It May Concern:

The following application is submitted on behalf of our client, Elster Solutions, LLC, for evaluation of their model REXUA-NZ for modular approval certification under FCC Part 15.247.

The REXUA-NZ module contains a frequency hopping spread spectrum (FHSS) radio operating in the 902 – 928 MHz ISM frequency band. The REXUA-NZ is installed in a meter housing and base to form a complete electricity meter. The REXUA-NZ module utilizes two distinct modes of operation; Energy Axis (EA) networking architecture devised by Elster Electricity LLC at low power, and Smart Metering Utility Network (SUN) networking architecture at high power.

The REXUA-NZ was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
