RE: Application for FCC TCB certification - FCC Grantee Code: QZC

To Whom It May Concern:

The purpose of this cover letter is to explain the nature of this application for FCC TCB Certification. Elster Solutions is submitting a 2-way wireless electric meter product which utilizes a blend of wireless technologies that eliminates the need for external communications equipment. This product is known as the EA_Gatekeeper with Wireless WIC3G.

The EA_Gatekeeper with Wireless WIC3G will integrate two FCC approved radio modules. The radio modules being used in this application are as follows:

<u>MANUFACTURER</u>	<u>MODEL #</u>	<u>FCC ID #</u>
Elster Electricity, LLC	ILC2	QZC-ILC24
Telit Communications S.p.A	DE910-DUAL	RI7DE910-DUAL

The Telit module has a "no collocation" clause in its grant. This clause prevents Elster Solutions, LLC from using the two radios together in one unit. Therefore, Elster Solutions, LLC is submitting this application and associated documentation to gain FCC certification to use these modules in a collocated environment.

Please contact me if any additional information is required.

Sincerely,

A handwritten signature in black ink that reads "Steve Worth".
