

FCC SDR Class III Permissive Change Declaration

Date: November 16, 2012

**Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046**

Attn: OET Dept.

Product/ Model Number: WLA321 Wireless LAN Access Point / WLA321-US

Regarding the requirements for class III permissive changes identified in the SDR application guide (KDB 442812 D01 SDR Apps Guide v01), the following information must be provided when performing a Class III permissive change.

1) Identify all versions of software that are approved in the original grant, and all other granted Class III permissive changes including the requested Class III change.

<RESPONSE to include chipset and/or host software versions as applicable.>

2) Confirm that there is no change to the Software, Distribution and Security Documentation. If it does then a Class III resubmission of SDS security documentation is also required. (Note: Any changes to the Software, Distribution and Security Documentation requires a PBA to be filed.)

We declare there have been no changes to the SDR security documentation. The safeguards in place in the original grant are still in place.
