

To Whom It May Concern:

Schweitzer Engineering Laboratories, Inc. is seeking an original approval for 47 CFR 15.247 certification for the following radio device containing a Texas Instruments CC1310 single-chip transceiver operating within the ISM band at 915MHz. Schweitzer Engineering Laboratories, Inc. also attest that the device meets the antenna requirements of 47 CFR 15.203 as it is intended for professional installation only.

FCC ID: R34-900FLTR
Product: 900 MHz radio module for the SEL Wireless Line Sensor System
Model: 9630-9110
EUT Type: Digitally modulated intentional radiator

Sincerely,

Name: William Morse
