Attention: Application Examiner

Re: Request for confidentiality

Applicant: AirWalk Communications Inc.

FCC ID: R4HAW96R19AJ1A01

To whom it may concern,

***Permanent Confidentiality***

Request is hereby submitted by AirWalk Communications Inc. to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

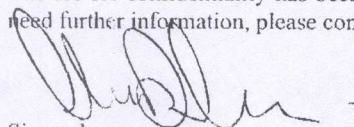

- Schematics
- Detailed Block diagrams
- Detailed Operational/Functional Description
- Tune up procedure
- Parts list
- Internal photos
- User manual (For use only by qualified technicians)

Rationale for request for confidentiality:

AirWalk Communications Inc. has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us.

Additionally, the AW-96 is a non-consumer device designed for use in a licensed cellular radiotelephone service infrastructure (CFR Pt 22) and as such is not accessible by the general public. It is normally mounted in a security protected enclosure or in a fenced enclosure adjacent to a tower. The AW-96 is only serviceable by the licensee or his/her designated technicians.

The fee for confidentiality has been submitted along with the fee for certification. If you have questions or need further information, please contact the undersigned.

  
Sincerely,  
Chris M Osborn  
VP Engineering,  
AirWalk Communications Inc.
