Re: FCC ID: R4N-AW5802MR

To Whom It May Concern:

The following application is submitted on behalf of our client, AvaLAN Wireless Systems, Inc., for evaluation of their model AW5802MR for certification under FCC Part 15.247 for a modular approval.

The model AW5802MR, FCC ID: R4N-AW5802MR, is a 5.8 GHz wireless module that can be used for point-to-point and point-to-multipoint operations. The evaluation was performed with the radio module set on a Ethernet browser interface board. The evaluation covers the radio module configured with both a 22 dBi panel antenna and a 5 dBi dipole antenna.

The FCC ID: R4N-AW5802MR was tested in full to the aforementioned tests requirements and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
