Re: FCC ID: R4N-AW900MR

To Whom It May Concern:

The following application is submitted on behalf of our client, AvaLAN Wireless Systems, Inc., for evaluation of their model AW900mTR a Class II Permissive Change under FCC Part 15.247.

The purpose of the Class II Permissive Change is to allow the use of additional antenna types with the FCC ID: R4N-AW900MR. Compliance with the maximum EIRP requirements is contingent with minimum cable length used with the antennas.

The FCC ID: R4N-AW900MR was tested for radiated emissions with the three antenna types listed in this application and was found to be in compliance with the aforementioned test requirements.

Sincerely,
