Description

FLEX 12EPV

Transmitter 12 button, depending on the number of buttons, the remote controller is different in size.

FLEX 8EPV

Transmitter 8 button, depending on the number of buttons, the remote controller is different in size.

The RF circuit in each device is exactly the same and connects into the digital circuit board (the board with the buttons and control processor). The main circuitry (micro-controller) on this digital circuit board is the same for all the devices in the family, the main difference being that the board is extended as more buttons are added.

| Diversity Description | Series Model | | | |
|----------------------------------|------------------------------------|------------------------------------|--|--|
| | FLEX 12EPV | FLEX 8EPV | | |
| Transmitter | 0 | 0 | | |
| Receiver | | | | |
| Input power | +3.0VDC | +3.0VDC | | |
| Number of buttons | 12 | 8 | | |
| Number of sensors | 3 | 2 | | |
| Number of relays | | | | |
| Number of relay Module boards | | | | |
| Size | 244mm (L) x 70mm (W) x 44mm (H) | 198mm (L) x 70mm (W) x 44mm (H) | | |
