

About JadeAudio

"JadeAudio" is a subsidiary brand of FiiO Electronics Technology Co., Ltd. It is a stylish, technological and youth-oriented brand aiming to provide high-quality yet cost-effective audio products with an excellent listening experience for the younger generation all around the world. The entity's Chinese name is derived from "翡翠" (Fei Sheng), meaning "the sound of Jade". The name "JadeAudio" conveys our mission towards providing consumers with a crisp and pleasant listening experience while maintaining audio fidelity.

Guangzhou FiiO Electronics Technology Co., Ltd. is a high-tech enterprise focusing on researching and developing portable music products, with current main products being hi-res music players, portable headphone DAC/Amps and headphones/earphones. Including a core team with nearly 30 years of R&D experience in audio products development, FiiO is specialized in self-research and development, and sells FiiO-branded products through sales agents worldwide. By virtue of high quality products and great customer service, FiiO enjoys a high reputation in the industry and has received countless well-known awards.

FiiO is committed to its brand proposition "Born for Music" and ceaselessly pursues perfection in product design and manufacturing to supply users with the best audio products at the best prices.

Power On/Off

① **Power on and connect:** Pull out the charging case and the # will power on automatically, or hold the touch button for 5s to turn it on. The white and green indicator light will flash alternately and the JW1 will automatically enter the Bluetooth pairing mode. Enable Bluetooth on the mobile phone and search for "JadeAudio JW1" to connect them. In follow-up uses, the JW1 can automatically reconnect to this device once being powered on.

② **Charging when powered off:** Push the JW1 into the charging case and it will automatically turn off and enter the charging state with the green indicator light on the charging case turning on.

Notes and Precautions

★ It is recommended to charge the device using a standard 5V charger or charger that could output 1A current or above.

★ Please do not place the device in circumstances of excessive high/low temperatures (above 45°C or below 0°C).

★ Bluetooth wireless technology has a working scope of approximately 10 meters. Transmission distance is affected by obstacles (human, metal objects, walls, etc.) or electromagnetic environments, which may lead to noise or audio loss.

★ Prolonged use of high volume may result in permanent hearing loss. Switching between audio sources may cause a sudden change in volume. Please turn the headphone volume to a lower level before wearing it.

★ If the device is to be left unused for a long time, please recharge it periodically to preserve its battery life.

★ Please do not use the battery after it is soaked in water; do not use the battery if it is severely swollen; do not disassemble, bump and squeeze the battery, or drop it into fire.

List of Items Included

WEEE Directive & Product Disposal

At the end of its serviceable life, this product should not be handed as household or general waste. It should be handed over to the applicable collection point for the recycling of electrical and electronic equipment, or returned to the supplier for disposal.

Internal/Supplied Batteries:

This symbol on the battery indicates that the battery is to be collected separately. This battery is designed for separate collection at an appropriate collection point.

FCC NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
