Re: FCC ID: R7PCGR1S2

To Whom It May Concern:

The following application is submitted on behalf of our client, Landis+Gyr Technology, Inc., for evaluation of their model BLT5 for certification under FCC Part 15.247.

The BLT5 receives and transmits packets of data in half-duplex operation on the CellNet wireless LAN using the 900 MHz radio frequency band. The BLT5 receives packets from endpoints on one of two antenna inputs at a frequency of 917.58 MHz and outputs the packet data serially to the processor using an RS232 interface.

The BLT5 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large, stylized 'R'.
