Dear Sir:

The following application is submitted on behalf of our client, Cellnet Technology, Inc., for evaluation of their radio modules 25-1075, 25-1080, and 25-1081 in accordance with Part 15 of the rules. The devices were tested to the requirements of the aforementioned sections of the rules and were found to be in compliance.

Application for certification for models 25-1075, 25-1080, and 25-1081 is for limited modular approval based on the gas meter types used for each module. Differences in the modules include shape and size to fit the individual gas meters. All modules are electrically identical and filed under a single application for certification.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kirby Munroe', with a long horizontal flourish extending to the right.

Kirby Munroe
Director, Wireless Certifications
