Re: FCC ID: R7PER1R1S6

To Whom It May Concern:

The following application is submitted on behalf of our client, Landis +Gyr Technology, Inc., for evaluation of their model 5252 Comm Module for certification under FCC Part 15.247.

The 5252 Comm Module is an electric endpoint with 900MHz frequency hopping Gridstream communications on a single PCB. The module will be integrated into the AMPY 5252B pre-pay meter and used for commercial and industrial metering applications.

The 5252 Comm Module was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
