Re: FCC ID: R7PIWRS3

To Whom It May Concern:

The following application is submitted on behalf of our client CellnetTechnology, Inc. for evaluation of model IWR with Utilinet DC Radio for a Class II Permissive Change under FCC Part 15.247.

The purpose of this permissive change is to address a change from a non-modular approval to a limited modular approval per KDB 178919(6)(a). The device will be an LMA due to the non-unique antenna connector therefore professional installation per Part 15.212 (a)(iv) is required; all other requirements of a modular approval are met.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive, flowing style.

Sam Wismer  
Vice President, Technology  
Advanced Compliance Solutions, Inc.
