Re: FCC ID: R7PIWRS5

To Whom It May Concern:

The following application is submitted on behalf of our client, Landis+Gyr Technology, Inc., for evaluation of their model Gridstream Series-5 IWR for a Class II Permissive Change certification under FCC Part 15.247.

The Gridstream Series-5 IWR is a frequency-hopping radio operating in the 902-928 MHz band with output power of up to 1W. The Gridstream Series-5 IWR serves as the radio module in various types of network equipment, including Routers and Collectors.

The purpose of this class II permissive change is to include 50kbps (902.2 – 927.8 MHz), 150kbps and 200kbps (902.4 – 927.6 MHz) data rates and corresponding channel plans.

The Gridstream Series-5 IWR was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive, flowing style.
