Re: FCC ID: R7PNG0R1S1, IC: 5294A-NG0R1S1

To Whom It May Concern:

The following application is submitted on behalf of our client, Cellnet Technology Inc., for evaluation of their model Utilinet, Modular SCADA/DA for single modular certification under FCC Part 15.247 as well as IC Radio Standards Specifications RSS-210.

There are two variants of the Utilinet, Modular SCADA/DA module, an integrated F-type antenna version and MCX Female coaxial RF connector version for external antennas. The module variants are electrically identical therefore included under a single identifier.

Each variant of the Utilinet, Modular SCADA/DA was evaluated to the above mention rule sections and found to be in compliance.

Sincerely,

Kirby Munroe Director, Wireless Certifications
