Re: FCC ID: R7PNG0R1S1

To Whom It May Concern:

The following application is submitted on behalf of our client, Landis+Gyr Technology, Inc., for evaluation of their model Utilinet, Modular SCADA/DA for a class II permissive change certification under FCC Part 15.247.

The Utilinet SCADA Single Board Radio is a self-contained 100 mW Integrated WanGate Radio (IWR) used by OEM vendors wanting to incorporate the Utilinet SBR capability within their SCADA/DA and metering products. The reason for this class II permissive change is to add an inter-stage SAW filter for spurious emissions reduction.

The Utilinet, Modular SCADA/DA was tested to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
