Re: FCC ID: R7PNG0R1S2

To Whom It May Concern:

The following application is submitted on behalf of our client, Landis+Gyr Technology, Inc., for evaluation of their model Gridstream S4 Modular SCADA/DA for certification under FCC Part 15.247 for single modular approval.

The Gridstream S4 Modular SCADA/DA consists of a 900 MHz transceiver on a single printed circuit board. This single board radio is for use by OEM vendors wanting to incorporate Smart Grid capability within their SCADA / DA and metering products.

The Gridstream S4 Modular SCADA/DA provides both an integral PCB F antenna and external whip antenna. To accommodate the integral antenna the PCB is slightly extended. The Gridstream S4 Modular SCADA/DA was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,
