Description of Parts:

1	MF (Multi-Function) / Phone button
2	Built-In Microphone

3	LED Light Indicator
4	Speaker
5	Charging Port

INSTRUCTIONS FOR USE

Charging Instructions

The Bluetooth Earbud comes with a built in rechargeable battery. Before using it for the first time we recommend you charge the battery fully. Only use the supplied USB cable for charging.

Connect the USB cable to a computer USB port and the other end plug to the charging port of the device. The red LED illuminates while the device is charging. It takes about 1.5 hours for the unit to fully charge. When the battery is fully charged, the LED will turn to blue.

Turning on/off the Bluetooth Earbuds

Press and hold the **MF** button for 4-6 seconds to turn ON or OFF the device.

Pairing the device with Bluetooth devices (phone or tablet that support call-answering)

- Ensure the Bluetooth Earbud is turned off, then press and hold the **MF** button for 4-6 seconds until the LED flashes red and blue.
- Place the Bluetooth Earbud and Bluetooth device (phone or tablet that support call answering) no further than 3 feet apart from each other;
- Activate the Bluetooth function on your mobile device. Please refer to the manufacturer's instructions for instructions on enabling Bluetooth on your device.
- Once you have activated Bluetooth on your mobile device, select the "**BTH-530**" from the list of available Bluetooth devices.
- If required, enter the password '0000' to confirm & finalize pairing.
- Once paired successfully, the LED will turn off, and a voice 'Connected' may be heard.
- You can now start to use the earbud.

Making a call with the Bluetooth Earbud in Bluetooth mode

(Note: Battery life & charging time may vary based on usage & types of devices used.)

FCC Instructions

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If the product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :

- Reorient or relocate the receiving antenna.
- Increase the separation between the product and receiver.
- Connect the product into an outlet on a circuit different from that to which the receiver is connected.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: modifications to this product will void the user's authority to operate this equipment.
