

## **Confidentiality Request**

**Details of the confidentiality rules are below.**

**The letter that needs to be completed and returned is on page 2 (this relates to permanent confidentiality only).**

### **Letter of confidentiality (Permanent Confidentiality)**

If exhibits are to remain confidential then a request letter should form part of the submission. The letter should request confidentiality pursuant to rule part 0.459 and should list the specific exhibits that are to remain confidential. The following Exhibits can be retained for long term confidentiality:

Parts list / Bill of Materials  
Schematic Diagrams  
Operational Description  
Radio RF Block Diagram

In addition to the above, the user manual can be retained as confidential if it is very technical and not supplied to the end user but to service personnel and professional installers. The internal photographs can remain confidential if the product will be fully potted in use

### **Letter of confidentiality (Temporary Confidentiality)**

An exhibit that is classed as business sensitive can be held temporarily confidential for a period up to 180 days if the product is not being marketed in the US. The temporary confidentiality is valid initially for 45 days at which point an additional declaration will be required to extend for a further 45 days and so on. Failure to submit additional declarations will result in the temporary confidentiality being automatically removed at the end of the 45 day period.

As soon as the product begins to be marketed the TCB should be informed and any exhibits held temporarily confidential will revert to public domain. Failure to inform the TCB at the marketing stage will be in violation of FCC regulations and the FCC could take further action.

A letter of requesting temporary confidentiality will be required, this should include the reasons the exhibit(s) are to be held confidential and a declaration stating that the product is not being marketed in the US. The following exhibits are eligible for short term confidentiality.

Internal Photos  
External Photos  
Test setup photos  
User Manual

**REQUEST FOR CONFIDENTIALITY  
IN ACCORDANCE WITH FCC RULE 0.459**

RE: Certification Application  
FCC ID: R8KUGWT1BL1

To Whom It May Concern:

Please be advised that the following information is to be held confidential on behalf of Unigen Corporation

- Parts list / Bill of Materials
- Schematic Diagrams
- Operational Description
- Radio RF Block Diagram

The application contains technical information which Invisible Systems Ltd deems to be trade secrets and propriety. If made public, the information might be used to the disadvantage of the applicant in the market place.

Thank you for your attention to this matter.

Yours faithfully

Unigen Corporation
