How to reboot the phone

Press and hold the Power button and Volume Up button at the same time until the OPPO logo animation is displayed to reboot the phone.

How to Transfer My Mobile Content to a New Mobile

You can use OPPO Clone app to copy your mobile phone, contacts, messages, photos, etc. from your old phone to the new one.

1. Backup up your content on your old mobile phone.
2. Install the Clone app on your new mobile phone.
3. Scan the QR code on the old phone to connect to the new phone.
4. Follow the on-screen instructions to complete your data transfer.

<https://clonemobile.com/zh-hk/>
 2. Enter previous phone no. on Phone no. field on "Clone Phone" on your new phone, and follow the on-screen instructions to migrate your data from your old phone account.

OPPO i-LASER PROTECT

OPPO i-LASER PROTECT is a laser protection technology that can protect your phone from laser damage. It can protect your phone from laser damage even when the phone is in a pocket or bag.

OPPO i-LASER PROTECT
 This feature is disabled by default. To enable it, you need to purchase the laser protection service from the OPPO i-LASER PROTECT website. The service fee is 100 RMB per year. The service fee will be automatically deducted from your account when you purchase the service.
