Date: May 15, 2014

Subject: Professional Installation for LocaXion Anchor- LADC101 with FCC ID : R90-LADC101 & IC : 5164A-LADC101

To whomsoever it may concern

LocaXion Anchor is a beacon device that responds to the probe request and transmits SSID data.

Honeywell declares that LocaXion Anchor required a special set of skills for installation and configuration i.e. checking signal strength before installation using proprietary tool for best performance.

Honeywell ensure that LocaXion Anchor will be installed by professionals, The installer is aware and responsible for ensuring that the proper antenna supplied by Honeywell is used as described in the filing for the FCC ID: R90-LADC101 & IC :5164A-LADC101.

Sincerely,

A handwritten signature in black ink, appearing to read 'Bonnie Saxinger', written in a cursive style.
