Cellphone warranty

Congratulations on choosing this cellphone - we hope that you will be completely

a period of twelve (12) months from the date specified on your original invoice (1). The warranty terms defined in the manual also apply to the battery and accessories sold with the cellphone but for a period of six (6) months (2) from the (3) any servicing, modification or repair performed by individuals not authorized date of purchase shown on your original invoice.

Under the terms of this warranty, you must immediately inform your vendor (or any repair center approved by TCT Mobile Limited or its affiliates, which are listed 7) use of the equipment for a purpose other than that for which it was designed, on our website www.alcatel-mobilephones.com) in case of a conformity defect on 8) normal wear your cellphone, you must present the invoice given to you at the time of purchase. 9) malfunctions caused by external causes (e.g., radio interference from other The vendor or maintenance center will decide whether to replace or repair, as appropriate, all or any part of the cellphone or accessory found to be defective; this warranty covers the cost of parts and labor but excludes any other costs offering equivalent functionality

replacement of products, shall entitle to a ONE (I) month (I) warranty unless there are statutory provisions to the contrary.

accessory caused by:

- I) failure to follow the instructions for use or installation,
- 2) failure to comply with technical and safety standards applicable in the geographical area where the equipment is used,
- are applicable in your country.
- (2) The life of a rechargeable Alcatel cellphone battery in terms of conversation time, standby time, and total service life, will depend on the conditions of use and network configuration. Batteries being considered expendable supplies, the specifications state that you should obtain optimal performance for your Alcatel cellphone during the first six months after purchase and for approximately 200 more recharges.

3) improper maintenance of batteries and other sources of energy, and of the overall electric installation

- 4) accidents or consequences of theft of the vehicle in which the cellphone is inclement weather
- recommended by TCT Mobile Limited or its affiliates, without their express written consent for such.
- by TCT Mobile Limited or its affiliates, the vendor or the approved maintenance center
- equipment power or cellphone line voltage fluctuations) 10) modifications made to the equipment even if required by changes
- regulations and/or modification of network parameters, by the absence of radio relay coverage.
- Servicing under the terms of this warranty, especially repair, modification or 12) equipment on which markings or serial numbers have been removed or altered, and handsets on which labels have been removed or deteriorated shall

 My cellphone has not responded for several minutes

be excluded from the warranty This warranty shall not apply to damage or defects to your cellphone and/or In accordance with the applicable law, your product is warranted against hidden

defects (defects inherent in the design, manufacture, etc.). There are no express warranties, whether written or oral, other than this printed limited warranty, express or implied, of any nature whatsoever.

In no event shall TCT Mobile Limited or its affiliates be liable for incidental consequential damages of any nature whatsoever, including but not limited to • Use your cellphone in accordance with the recommended (i) The mandatory period may vary if overriding statutory provisions trading loss, commercial loss, to the full extent those damages can be disclaimed by law. Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so My cellphone turns off by itself the preceding limitations or exclusions may not apply to you

Troubleshooting

transported, acts of vandalism, lightning, fire, humidity, infiltration of liquids, Before contacting your service provider or repair center, you are advised to follow the instructions below:

- Your cellphone is guaranteed against any deviation from technical specifications for 5) connecting or integrating the cellphone into equipment not supplied or not You are advised to switch off the cellphone from time to time to optimize its performance.
 - You are advised to fully charge the battery (IIII) for optimal
 - Avoid storing large amounts of data in your cellphone as this may affect the performance of your cellphone.

and carry out the following checks:

My cellphone does not switch on

- in Press 🖭 until the screen comes on
- Check the battery charge level
- Check the battery contacts, remove and reinstall your battery, then turn your cellphone back on

- Press the key
- · Remove the battery and re-insert it, then switch the cellphone back

My screen is difficult to read

- Clean your screen
- conditions of use

- Check that your keypad is locked when you are not using your cellphone
- · Check the battery charge level
- · Check that the function "Auto OFF" is not activated.

My cellphone does not charge properly

- battery charge indicator can take several minutes and may be accompanied by a quiet hissing sound.
- Make sure charging is carried out under normal conditions (0°C etc.)
- Make sure your battery is inserted. It must be inserted before Make sure that you have not barred certain calls plugging in the charger
- Make sure you are using an Alcatel battery and charger
- When abroad, check that the electrical current is compatible
- NOTICE: Your cellphone is not designed for chargers connected through USB cable to a computer. Please use dedicated charger to charge your cellphone.

My cellphone does not connect to a network

- Try connecting in another location
- Verify the network coverage with your operator
- Check with your operator that your SIM card is valid
- Try selecting the available network(s) manually
- Try connecting at a later time if the network is overloaded SIM card error
- Make sure the SIM card was correctly inserted Verify with your operator that your SIM card is 3V compatible; the
- old 5V SIM cards cannot be used Make sure the chip on your SIM card is not damaged or scratched

Unable to make outgoing calls Make sure you have dialed a valid number and pressed the key

- For international calls, make sure you have entered the country and
- Make sure your cellphone is connected to a network, and that the network is not overloaded or unavailable · Check your subscription with your operator (credit, SIM card valid,
