## **3.2** Answering or rejecting a call

## 3.3 Consulting your call memory

You can access your call memory by pressing the Call key from the Home screen and touching Call log tab to view call history in categories of Missed call, Dialed call and Received call.

## ...... Contacts..... 📭

You can view and create contacts on your cellphone and synchronize these with your Gmail contacts or other applications on the web or on

When using Contacts for the first time you are required to 5.1 Create message add new contacts to cellphone, import contacts from SIM card On message list screen, touch New message to create text/multimedia to cellphone, or synchronize contacts from other application messages accounts to cellphone.

### 4.1 Adding a contact

press Menu key from contact list screen and touch New contacts.

### 4.2 Importing and exporting contacts

From Contacts screen, press Menu key to open contact list option menu. touch Import/Export, then select Import from SIM, Import from MicroSD card or Export to SD card

To import/export a single contact, touch the contact your want to import/export, then Done.

To import/export all contacts, press Menu key, then touch Import all/Export all.

## 4.3 Synchronizing contacts in multiple accounts

When you receive an incoming call, drag the green cellphone icon to the Contacts, data or other information can be synchronized from multiple right or press Call key to answer. Hang up the call by pressing End key. accounts, depending on the applications installed on your cellphone.

You can create, edit and receive SMS and MMS with this cellphone

To access this feature, touch Application tab from Home screen, then select Messaging.

All messages you receive or send out can only be saved in cellphone memory. To consult messages stored in SIM card, press Menu key from Messaging screen, then touch Settings\ Manage SIM card message

#### Sending a text message

Enter cellphone number of the recipient on To bar, touch Type to Touch Application tab on the Home screen, select Contacts, then compose bar to enter the text of the message. When finished, touch Send to send the text message.

#### Sending a multimedia message

MMS enables you to send video clips images photos animations slides and sounds to other compatible cellphones and e-mail addresses

(image, video, audio, slides, etc.) are attached or Subject or email EDGE/3G networks or Wi-Fi hebbe sesserbbe

# **Google applications** <sup>1</sup> & Other applications <sup>1</sup>.....

With this cellphone some build-in Google applications and other third party applications are available for your convenience.

You can communicate with your friends at any time when they are Wi-Fi can be used on cellphone even without a SIM card inserted. connected to the service; you can exchange messages or emails with your friends effectively without staying close to your computer; you can track your current location, view traffic situations, get to know directions to your destination and search locations of your friends or any places of interest; you can download more applications from Touch Wi-Fi settings to set up and manage wireless access points of wohsites etc.

For more information about these applications, please check user manual in cellphone (Settings\About phone\User manual)<sup>2</sup> or online: www.alcatel-mobilephones.com

# Getting connected.....

## 7.I GPRS/EDGE/3G

For the first time you turn on your cellphone with SIM card inserted, it will automatically configure network service: GPRS, EDGE or 3G.

To check the network connection you are using, press Menu key on Home screen, then touch Settings\Wireless & networks\Mobile networks\Network operators or Access Point Names.

#### 7.2 Wi-Fi

To use Wi-Ei on your cellphone press Menu key on Home screen touch Settings/Wireless & networks, select Wi-Fi check box to turn it on Cellphone will search for available wireless networks

Wi-Fi network service

#### Connecting to a computer via USB 7.3

With the USB cable, you can transfer media files and other files between your cellphone's MicroSD card and the computer

# Safety and use..... Do not allow your cellphone to be exposed to adverse weather or environmental conditions (moisture, humidity, rain, infiltration of liquids, dust, sea air, etc.). The

hat you read this chapter carefully before using your cellphone. The manufacturer disclaims any liability for damage, which may result

#### • TRAFFIC SAFETY

Given that studies show that using a cellphone while driving a vehicle constitutes a real risk even when the hands-free kit is used (car kit headset ) drivers are equested to refrain from using their cellphone when the vehicle is not parked. Check the laws and regulations on the use of wireless cellphones and their sories in the areas where you drive Always obey them The use of these vices may be prohibited or restricted in certain areas.

When driving, do not use your cellphone and headphone to listen to music or to the radio. Using a headphone can be dangerous and forbidden in some areas. When switched on your cellphone emits electromagnetic waves that can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem

do not place your cellphone on top of the dashboard or within an airbag deployment area, check with your car dealer or the car manufacturer to make sure that the car's

electronic devices are shielded from cellphone RF energy.

#### CONDITIONS OF USE:

14

You are advised to switch off the cellphone from time to time to optimize its

Remember to abide by local authority rules of cellphone use on aircrafts Switch the cellphone off when you are in health care facilities, except in designated areas. As with many other types of equipment now in regular use, cellphones can - Play at the farthest distance possible from the screen. interfere with other electrical or electronic devices, or equipment using radio When you play games on your cellphone, you may experience occasional frequency

obey all signs and instructions posted in a fuel depot, gas station, or chemical plant, or in any potentially explosive atmosphere. When the cellphone is switched on, it should be kept at least 15 cm from any

medical device such as a pacemaker, a hearing aid or insulin pump. In particular when using the cellphone you should hold it against the ear on the opposite side

To avoid hearing impairment, answer the call before holding your cellphone to your ear. Also move the handset away from your ear while using the "hands-free" option because the amplified volume might cause hearing damage. It is recommended to have proper supervision while small children use you cellphone

When replacing the cover please note that your cellphone may contain

substances that could create an allergic reaction Always handle your cellphone with care and keep it in a clean and dust-free place

urchaser and non-infringement of copyright. The purchaser undertakes sales receipt. Such defect(s) will be repaired or replaced (with new or

Non-compliance with the instructions for use or installation, or with technical and safety standards applicable in the geographical area where your phone is used;
