Your cellphone.....

For more information about how to use the phone, please go to Moreover, from the website you can also consult FAQ, realize software upgrade via PC suite, etc.

Ouick Start Guide

Prolonged exposure to music at full volume on the music player may damage the listener's hearing. Set your cellphone volume safely. Use only headphones recommended by TCT Mobile Limited and its affiliates

ALCATELOne touch.

English - CJB31M1ALAAA

2.2 Power on your cellphone

Hold down the 🛀 key until the cellphone powers on.

2.3 Power off your cellphone

Hold down the Week from the main screen.

Using the touchscreen

To access an application, tap it with your finger

Slide the screen to scroll up and down the applications, images, web pages... at your convenience.

Making a call.....

Enter the desired number on the hardware keypad directly.

The number you entered can be saved to Contacts by selecting "Save". If you make a mistake, you can delete the incorrect digits by pressing or .

To hang up the call, press the 🛀 key.

To access this function, select to enter the main menu, then tap 🕌.

Change the order

Access the main menu, focus on the main menu item you want to move, and then tap "Options\Move", it will go to the main menu screen and tick "\" will be shown on the main menu you selected, then release it to your favourite destination.

Send key Fnd key Shift key

Show/Hide

Access "Menu arrange", tap the left check box of the selected menu once to show/hide, then tap "Done" to save the operation.

5.1 Conversational On (Off) mode

In conversational on mode, you can view chat history in chronological order. In conversational off mode, you can access the following folders: Inbox, Outbox, Sent, Drafts, etc. You can switch between these two modes by selecting "Options\Settings\Conversational mode\ On (Off)". Conversational mode is set as the default mode and the following instructions are based on this mode

5.2 Write message

Select "Messaging\Write message" to create text/multimedia messages. An SMS will be converted to MMS automatically when images, videos, audio, slides or attachments are inserted; Subject, CC/ BCC/email address is added; or the message contains more than 8 pages of text.

Specific letters (accent) will increase the size of the SMS, this may cause multiple SMS to be sent to your recipient.

Timer send

The main menu is designed to vary according to your preference. Schedule a SMS/MMS to be sent out at predefined time ("Option" Timer send").

Your cellphone has an email client with the settings predefined for a few popular email services like - GoogleMail, Yahoo, AOL, etc. Besides this, you can set up other POP3 or IMAP4 email accounts that you may be using.
