Muting the ringtone
To mute ringtone of current incoming call, press Right softkey/ volume down key once.

Rejecting a call
Press the **End key** once, or reject it by SMS (**Options**|**Reject call with SMS**).

4 Menu arrange

It is designed to vary according to your preference.

Change the order
Access the main menu, focus on the main menu item you want to move, select **Options**|**Move**, and tick "i" will be shown on the item you selected, then release it to your favorite destination.

Show/Hide
Access the main menu, select **Options**|**Add and remove menu**, and select the left check box of the selected menu once to show/ hide, and then select **Done** to save the operation.

5 Messages.....

5.1 Access
You may access this menu using the following options:
• Access from the main menu by selecting **Messages**.
• Select **Messages** from widget bar, and then enter the sub-menu you require.

5.2 Conversational On (Off) mode
In conversational mode, you can view chat history in chronological order. In conversational off mode, you may have access to the following folders: **Inbox**, **Outbox**, **Sent**, **Drafts**, **Voicemail**, **Broadcast SMS**, **Empty folder**, **Templates**, **Settings**, etc. Conversational view mode is set as default. You may switch to conventional mode by selecting **Options**|**Settings**|**Conversational mode**|**On(Off)**.

5.3 Write message
You can select **Messages**|**Write message** from the main menu or access from widget **Write** to write text/multimedia message. One or more recipients can be added from contact list and you can remove a recipient by pressing **End key**. Press **Contacts** through **End key** to multi-select recipients from Contacts.

An SMS will be converted to MMS automatically when images, videos, audio, slides or attachments are inserted. Subject, CC/BCC/email address is added; or the message contains more than 8 pages of text.

Timer send
Schedule an SMS/MMS to be sent out at predefined time (**Options**|**Timer send**).

Timer send
An SMS message of more than a certain number of characters (the number of characters depends on your language) will be charged as several SMS. An MMS message containing photos and/or sounds may also be billed as more than one message. Specific letters (accents) will increase the size of the SMS, this may cause your recipient to receive your message as two or more SMS messages.

6 E-mail

Your cellphone has an email client with the settings pre-defined for a few popular email services like – GoogleMail, Yahoo, AOL, etc. Besides this, you can set up other POP3 or IMAP4 email accounts that you may be using.

Your cellphone

1.1 Keys and connectors

- Press to go left/right/up/down
- Press to confirm an option
- Answer/Send a call
- Enter Call log
- Press: End a call
- Return to the Home screen
- Press and hold: Power on/off
- Press and hold: Access your voicemail
- Switch between ABC/abc/Abc
- Press once: Input a top-half character
- Press twice: Lock the keyboard in top-half key input mode
- Press and hold: Input top-half characters only until key is released
- Press: Enter a space (on edit mode)
- Confirm an option (on edit mode)
- Press and hold: Access language list (on edit mode)
- Hold down Fn key, then press Space key to select input method
- Enter symbol table
- Hold down Fn key, then press SYM key to enter emotion table
- Confirm an option
- Enter the next line
- Vibrate alert

⁽¹⁾ The **End key** mentioned on the following chapters stands for Send key only..

- Volume up/down
- Zoom in/out
- Press and hold from the Home screen to access settings of LED display.
- Press and hold from the Home screen to access your social network service.
- Press and hold to turn the Home screen into a mirror screen.

1.2 LED display

This cellphone is equipped with an LED display, alerting you to ongoing or missed events. (Call, SMS, alarm...), as well as allowing you to fully experience its effects in the LED display settings for Contacts, Messages, Calls, etc., (Image, animation...).

Press the volume key to light the LED display when it goes out. You can personalize your LED display as you choose.

1.3 Status bar icons ⁽¹⁾

- Battery charge level**
- Vibrate alert:** your cellphone vibrates, but does not ring or beep with the exception of the alarm.
- Bluetooth status (Activated).**
- Bluetooth status (Connected to an audio device).**
- Java status (Activated).**

⁽¹⁾ The icons and illustrations in this guide are provided for informational purposes only.

7 Pairing ⁽¹⁾.....

Pairing Instant messaging (IM) allows you to chat with other people using Pairing account. You can also connect to other popular IM services through Pairing, like Yahoo, AIM, GG, ICQ, GTalk, iChat etc.

Please note that the services accessible to you will depend on your client version and dynamic Pairing server options.

8 Contacts

8.1 Consulting your contacts
You can access to this function from the main menu by selecting **Contacts**.

8.2 Adding a contact
You can add a new contact by selecting **Options**|**Create new**.
Adding birthday reminder
You can set a birthday reminder when editing contact information. This will remind you at regular intervals during the day prior to the set date.

9 Call log

9.1 Access
You can access the function using the following options:
• Select **Call log** from main menu
• Press **Call log** key from Home screen
• Select **Call log** from widget bar, and then enter the sub-menu you require.

9.2 Available options
When you press **Options**, you can have access to **Send message**, **Save to Contacts**, **Edit before call**, **Delete**, etc.

9.2.1 Call settings ⁽¹⁾
You can access a number of items with this option: **Call waiting**, **Call forwarding**, **Call barring**, **Caller ID**, **Line switching**, **Auto redial**.

Billing ⁽¹⁾
You can access different items with this option: **Last call cost**, **Total cost**, **Max cost**, **Reset cost**, **Price per unit**, **Duration**, **GPRS counter**, **Beep duration**.

10 Media applications

10.1 Music.....
You can access this feature from the main menu by selecting **Music**. You will have full flexibility of managing music both on your cellphone and SD card.

⁽¹⁾ Contact your network operator to check service availability.

- Headset connected.**
- Call forwarding activated:** your calls are forwarded.
- Alarm or appointments programmed.**
- Level of network reception.**
- Voicemail message arrived.**
- Missed calls.**
- Call in progress.**
- Stopwatch is active.**
- Radio is on.**
- Email unread.**
- WAP messages ⁽¹⁾.**
- Roaming.**
- SD card scanning in progress.**
- SD card scanning completed.**
- SIM card unavailable.**
- Line switching ⁽¹⁾:** indicates the selected line.
- GPRS connection status (Activated).**
- GPRS connecting.**
- EDGE connecting.**
- EDGE attached.**

⁽¹⁾ Depending on your network operator.

11.2 WAP.....

Access WAP options: **Homepage**, **Bookmarks**, **Go to URL**, **Open file**, **Last web address**, **Recent pages**, **Offline pages**, **Service inbox**, **Settings**.

11.3 News.....
It is a huge time saver providing news updates from a website in a simple form.
Once subscribed to a channel, it gives you the ability to track and manage all your favorite RSS content on your cellphone at anytime, anywhere!

11.4 Weather.....
Your cellphone is equipped with a weather function for consulting up to 3-day forecast of favorite cities.

11.5 Facebook.....
Facebook is a social utility that connects people with friends and others who work, study and live around them. It provides a number of features with which users may interact: Wall, a space on every user's profile page that allows friends to post messages for the user to see; Pokes, which allow users to send a virtual "poke" to each other; Gifts, a feature allowing users to send virtual gifts which appear on the recipient's profile; Market places, which lets users post free classified goods, etc.
To open an account online, please go to: <http://www.facebook.com/>.

11.6 mTweet.....
Twitter is a social networking and microblogging service that has gained notability and popularity worldwide. This feature enables cellphone users to exchange news updates and ideas with a community in the form of messages or posts. Posts are displayed on the author's profile page and delivered to the author's subscribers or followers.
To open an account online, please go to: <http://www.twitter.com/>.

⁽¹⁾ The quality of the radio depends on the coverage of the radio station in that particular area.
⁽²⁾ Depending on your network operator and market.
⁽³⁾ Depending on your network operator. May cause additional network charges for data flow to provide this service. Extra fees might also be charged in roaming states.

- Music active.**
- Sending an MMS.**
- MMS receipt in progress.**
- Sending an SMS.**
- Silence mode:** your cellphone does not ring, beep or vibrate with the exception of the alarm.
- SMS unread.**
- MMS unread.**
- (Flickering) Message list is full:** your cellphone cannot accept any new messages. You must access the message list and delete at least one message on your SIM card.
- Flight mode.**

1.4 Home screen

You can customize your Home screen by selecting **Personalize** through Right softkey.

1.4.1 Widget bar
Widgets are convenient shortcuts for quick access from the Home screen.

1.4.2 Change wallpaper
You can select a folder to choose one image as favorite wallpaper by selecting **Change wallpaper**.

2 Getting started.....

2.1 Set-up

Removing or installing the back cover

Inserting or removing the SIM card

You must insert your SIM card to make phone calls. Please power off your cellphone and remove battery before inserting or removing the SIM card.

Place the SIM card with the chip facing downwards and slide it into its housing. Make sure that it is correctly inserted. To remove the card, press the bottom and slide it out.

Installing or removing the battery

Insert and click the battery into place, then close the cellphone cover. Unclip the cover, then remove the battery.

Charging the battery

Connect the battery charger to your cellphone and outlet respectively.

To reduce power consumption and energy waste, when battery is fully charged, disconnect your charger from the plug; switch off Bluetooth or background-running applications when not in use; reduce the backlight time, etc.

2.2 Power on your cellphone

Hold down the **End key** until the cellphone powers on.

2.3 Power off your cellphone

Hold down the **End key** from the Home screen.

3 Making a call

Dial the desired number then press the **End key** to place the call. The number you entered can be saved to Contacts by selecting **Save**. If you make a mistake, you may press Right softkey to delete the incorrect digits one by one, or you may press and holds Right softkey to delete all.

To hang up the call, press the **End key**.

12 Entertainment.....

12.1 Stopwatch.....
The stopwatch is a simple application for measuring time with the possibility to register several results and suspend/resume measurement.

12.2 Ebook.....
A bookshelf contains the electronic books (.txt and .pdb file only). While reading the book, you may add bookmark, or reach the text by searching words, phrases (**Options**|**Find**, **Options**|**Jump to**).

12.3 Java.....
Your Alcatel cellphone may include ⁽¹⁾ some Java™ applications and games. You can also download new applications and games to your cellphone.

13 Camera.....

Your cellphone is fitted with a camera for taking photos and shooting videos that you can use in different ways:
• store them in your **File manager**|**My creations**.
• send them in a multimedia message (MMS) to a cellphone or an email address.
• send them directly by Email or Bluetooth.
• customize your Home screen.
• select them as incoming call image to a contact in your Contacts.
• transfer them by data cable or microSD card to your computer.

⁽¹⁾ Depending on your country or your operator.

14 Profiles

With this menu, you may personalize ringtones for different events and environments.

15 File manager

You will have an access to all audio and visual files stored in cellphone or SD card in File manager. You can access a number of items with this option: **My audios**, **My images**, **My videos**, **Ebook**, **My creations**, **Others**, **Phone**, **SD card** and **Memory status**.

To release the microSD card holder, slide it in the direction of the arrow and lift it. Then insert the microSD card with the golden contact downward. Finally, turn down the microSD holder and slide it in the opposite direction to lock it.

16 Bluetooth™

Access this feature by pressing **Menu** through Left softkey from the Home screen to enter the main menu, then selecting **Bluetooth**.

Prolonged exposure to music at full volume on the music player may damage the listener's hearing. Set your cellphone volume safely. Use only headphones recommended by TCT Mobile Limited and its affiliates.

17 Others.....

17.1 Calendar.....

Once you enter this menu from main menu, there is a monthly-view calendar for you to keep track of important meetings, appointments, etc. Days with events entered will be marked in color.

17.2 Calculator.....

Access this feature by selecting "Calculator" from the main menu. Enter a number, select the type of operation to be performed using the navigation keys, and enter the second number, then select "=" to display the result.

17.3 Notes.....

You can create a note in text format by accessing "Notes" from main menu.

17.4 Voice memo.....

Accessing "Voice memo" from the main menu allows you to make voice or sound recordings.

17.5 Tasks.....

Enables you to easily manage and track the progress of a task with priorities. All the tasks will be sorted by due date.

17.6 Alarm.....

Your cellphone has a built-in alarm clock with a snooze feature.

17.7 World clock.....

The World clock shows current local time and the time zone in different cities.

17.8 Converter.....

You can use the Weight and Length conversion by selecting the unit you wish to convert, then press to input the digits. Finally confirm with "OK".

18 Settings.....

From the main menu, select the menu icon  and select the function of your choice in order to customize your cellphone: **Phone settings, Call settings, Security, Networks, Connectivity.**

LED display

With the option of "LED settings", you can choose any of the images or animations as the event indicator in Contacts, Messages, Calls, etc.

With the option of "My LED pattern", you can design your preferred LED display pattern.

19 Making the most of your cellphone.....

PC suite

You can download PC Suite for free from the website (www.alcatelone-touch.com). The PC suite includes:

• Backup/restore

You can backup the important data in your cellphone and restore them when needed.

• GPRS modem

Use your cellphone to connect PC to the internet.

• Multimedia Personalization

Customize your cellphone with images, animations and melodies.

• Messages

You can compose SMS/MMS easily on your PC and transfer them to your cellphone.

Supported Operating Systems

Windows XP/Vista/Windows 7.

One Touch Upgrade

Using One Touch Upgrade tool you can update your cellphone's software from your PC.

Download One Touch Upgrade from ALCATEL website (www.alcatelonetouch.com) and install it on your PC. Launch the tool and update your cellphone by following the step by step instructions (refer to the User Guide provided together with the tool).

Your cellphone's software will now have the latest software.

All personal information will be permanently lost following the update process. We recommend you backup your personal data using PC Suite before upgrading.

Supported Operating Systems

Windows XP/Vista/Windows 7.

Webcam ⁽¹⁾

You can use your cellphone as a webcam for instant messaging on your PC.

- Connect your cellphone to PC via USB cable.

- Go to "My computer" folder on your PC and find USB video device (Under Scanners & Cameras).

20 Latin input mode.....

There are two text entry methods that can be used to write messages:

- Normal: this mode allows you to type a text by choosing a letter or a sequence of characters associated with a key.

- CooTek mode: this mode can perform predictive input in hardware keypad and supports multi-language input.

Keypad inputting:

 : Switch between ABC/abc/Abc

 : Press once: Input a top-half character
Press twice: Lock the keyboard in capital letter input mode

Press and hold: Input top-half characters only until key is released

 : Press: Delete one by one
Press and hold: Delete all

 : Press: Enter a space (on edit mode)
Confirm an option (on edit mode)

Press and hold: Access language list (on edit mode)
Hold down Fn key, then press space key to select input method

 : Confirm an option
Enter the next line

 : Enter symbol table
Hold down Fn key, then press sym key to enter emotion table

Safety and use.....

We recommend that you read this chapter carefully before using your cellphone. The manufacturer disclaims any liability for damage, which may result as a consequence of improper use or use contrary to the instructions contained herein.

•TRAFFIC SAFETY:

Given that studies show that using a cellphone while driving a vehicle constitutes a real risk, even when the hands-free kit is used (car kit, headset...), drivers are requested to refrain from using their cellphone when the vehicle is not parked. Check the laws and regulations on the use of wireless cellphones and their accessories in the areas where you drive. Always obey them. The use of these devices may be prohibited or restricted in certain areas.

When driving, do not use your cellphone and headphone to listen to music or to the radio. Using a headphone can be dangerous and forbidden in some areas.

When switched on, your cellphone emits electromagnetic waves that can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem:

- do not place your cellphone on top of the dashboard or within an airbag deployment area,
- check with your car dealer or the car manufacturer to make sure that the car's electronic devices are shielded from cellphone RF energy.

• CONDITIONS OF USE:

You are advised to switch off the cellphone from time to time to optimize its performance.

Remember to abide by local authority rules of cellphone use on aircrafts. Operational Warnings: Obey all posted signs when using mobile devices in public areas.

Follow Instructions to Avoid Interference Problems: Turn off your mobile device in any location where posted notices instruct you to do so. In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Switch the cellphone off when you are in health care facilities, except in designated areas. As with many other types of equipment now in regular use, cellphones can interfere with other electrical or electronic devices, or equipment using radio frequency.

Switch the cellphone off when you are near gas or flammable liquids. Strictly obey all signs and instructions posted in a fuel depot, gas station, or chemical plant, or in any potentially explosive atmosphere.

When the cellphone is switched on, it should be kept at least 15 cm from any medical device such as a pacemaker, a hearing aid or insulin pump. In particular when using the cellphone you should hold it against the ear on the opposite side to the device, if any.

Read and follow the directions from the manufacturer of your implantable device.

medical device. If you have any questions about using your mobile device with your implantable medical device, consult your healthcare provider.

To avoid hearing impairment, answer the call before holding your cellphone to your ear. Also move the handset away from your ear while using the "hands-free" option because the amplified volume might cause hearing damage.

It is recommended to have proper supervision while small children use your cellphone.

When replacing the cover please note that your cellphone may contain substances that could create an allergic reaction.

Always handle your cellphone with care and keep it in a clean and dust-free place. Do not allow your cellphone to be exposed to adverse weather or environmental conditions (moisture, humidity, rain, infiltration of liquids, dust, sea air, etc.). The manufacturer's recommended operating temperature range is -10°C (14°F) to +55°C (131°F) (the max value depends on device, materials and housing paint/texture).

Over 55°C (131°F) the legibility of the cellphone's display may be impaired, though this is temporary and not serious.

Do not open or attempt to repair your cellphone yourself. Do not drop, throw or try to bend your cellphone. Do not paint it.

Use only batteries, battery chargers, and accessories which are recommended by TCT Mobile Limited and its affiliates and are compatible with your cellphone model. TCT Mobile Limited and its affiliates disclaim any liability for damage caused by the use of other chargers or batteries.

Your cellphone should not be disposed of in a municipal waste. Please check local regulations for disposal of electronic products.

Remember to make back-up copies or keep a written record of all important information stored in your cellphone.

Some people may suffer epileptic seizures or blackouts when exposed to flashing lights, or when playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout. If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult your doctor before playing video games on your cellphone or enabling a flashing-lights feature on your cellphone. Parents should monitor their children's use of video games or other features that incorporate flashing lights on the cellphones. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. To limit the likelihood of such symptoms, please take the following safety precautions:

- Play at the farthest distance possible from the screen.
- When you play games on your cellphone, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow these instructions to avoid problems such as tendonitis, carpal tunnel syndrome, or other musculoskeletal disorders:

- Take a minimum of a 15-minute break every hour of game playing.
- If your hands, wrists, or arms become tired or sore while playing, stop and rest for several hours before playing again.

- If you continue to have sore hands, wrists, or arms during or after playing, stop the game and see a doctor.

 Prolonged exposure to music at full volume using the music player may damage your hearing. Set your cellphone's volume to its lowest setting prior to inserting headphones in your ears and adjust the volume to your preference. Only use headphones that are recommended by TCT Mobile Limited and its affiliates.

• PRIVACY:

Please note that you must respect the laws and regulations in force in your jurisdiction or other jurisdiction(s) where you will use your cellphone regarding taking photographs and recording sounds with your cellphone. Pursuant to such laws and regulations, it may be strictly forbidden to take photographs and/or to record the voices of other people or any of their personal attributes, and reproduce or distribute them, as this may be considered to be an invasion of privacy.

It is the user's sole responsibility to ensure that prior authorization be obtained, if necessary, in order to record private or confidential conversations or take a photograph of another person; the manufacturer, the seller or vendor of your cellphone (including the operator) disclaim any liability which may result from the improper use of the cellphone.

• BATTERY AND ACCESSORIES:

Before removing the battery from your cellphone, please make sure that the cellphone is switched off.

Observe the following precautions for battery use:

- Do not attempt to open the battery (due to the risk of toxic fumes and burns).
- Do not puncture, disassemble or cause a short-circuit in a battery.
- Do not burn or dispose of a used battery in the garbage or store it at temperatures above 60°C (140°F).

Batteries must be disposed of in accordance with locally applicable environmental regulations. Only use the battery for the purpose for which it was designed. Never use damaged batteries or those not recommended by TCT Mobile Limited and/or its affiliates.

This symbol on your cellphone, the battery and the accessories means that these products must be taken to collection points at the end of their life:

- Municipal waste disposal centers with specific bins for these items of equipment.
- Collection bins at points of sale.

They will then be recycled, preventing substances being disposed of in the environment, so that their components can be reused.

In European Union countries:

These collection points are accessible free of charge. All products with this sign must be brought to these collection points.

In non European Union jurisdictions:

Items of equipment with this symbol are not to be thrown into ordinary bins if

they will then be recycled, preventing substances being disposed of in the environment, so that their components can be reused.

Items of equipment with this symbol are not to be thrown into ordinary bins if

they will then be recycled, preventing substances being disposed of in the environment, so that their components can be reused.

Items of equipment with this symbol are not to be thrown into ordinary bins if

they will then be recycled, preventing substances being disposed of in the environment, so that their components can be reused.

your jurisdiction or your region has suitable recycling and collection facilities; instead they are to be taken to collection points for them to be recycled.

In the United States you may learn more about CTIA's Recycling Program at www.recyclewirelessphones.com

CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS

• CHARGERS

Home A.C./Travel chargers will operate within the temperature range of 0°C (32°F) to 40°C (104°F).

The chargers designed for your cellphone meet with the standard for safety of information technology equipment and office equipment use. Due to different applicable electrical specifications, a charger you purchased in one jurisdiction may not work in another jurisdiction. They should be used for this purpose only.

Characteristics of power supply (depending on the country):
Travel charger: Input: 100-240 V, 50/60 Hz, 0.15 A
Output: 5 V, 400/550 mA

Battery: Lithium 850 mAh

• RADIO WAVES:

THIS CELLPHONE MEETS THE GOVERNMENT'S REQUIREMENTS FOR EXPOSURE TO RADIO WAVES.

Your cellphone is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio-frequency (RF) energy. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. These guidelines include a substantial safety margin designed to ensure the safety of all persons, regardless of age and health.

The exposure standard for cellphones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by public authorities such as the Federal Communications Commission of the US Government (FCC), or by Industry Canada, is 1.6 W/kg averaged over 1 gram of body tissue. Tests for SAR are conducted using standard operating positions with the cellphone transmitting at its highest certified power level in all tested frequency bands.

Although the SAR is determined at the highest certified power level, the actual SAR level of the cellphone while operating can be well below the maximum value. This is because the cellphone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output of the cellphone. Before a cellphone model is available for sale to the public, compliance with national regulations and standards must be shown.

The highest SAR value for this model cellphone when tested is 0.865 W/kg for use at the ear and 0.677 W/kg for use close to the body.

While there may be differences between the SAR levels of various cellphones and at various positions, they all meet the government requirement for RF exposure. For body-worn operation, the cellphone meets FCC RF exposure guidelines provided that it is used with a non-metallic accessory with the handset at least 1.5 cm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines.

Additional information on SAR can be found on the Cellular Telecommunications & Internet Association (CTIA) Web site: <http://www.phonfacts.net>

The World Health Organization (WHO) considers that present scientific information does not indicate the need for any special precautions for use of cellphones. If individuals are concerned, they might choose to limit their own or their children's RF exposure by limiting the length of calls, or using "hands-free" devices to keep cellphones away from the head and body. (fact sheet n°193). Additional WHO information about electromagnetic fields and public health are available on the following website: <http://www.who.int/emf-amf>.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. For the receiver devices associated with the operation of a licensed radio service (e.g. FM broadcast), they bear the following statement: This device complies with Part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

For other devices, they bear the following statement: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference
- (2) this device must accept any interference received, including interference that may cause undesired operation.

For other devices, they bear the following statement: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference
- (2) this device must accept any interference received, including interference that may cause undesired operation.

For other devices, they bear the following statement: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference
- (2) this device must accept any interference received, including interference that may cause undesired operation.

For other devices, they bear the following statement: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

Your cellphone is equipped with a built-in antenna. For optimal operation, you should avoid touching it or degrading it.

As mobile devices offer a range of functions, they can be used in positions other than against your ear. In such circumstances the device will be compliant with the guidelines when used with headset or usb data cable. If you are using another accessory ensure that whatever product is used is free of any metal and that it positions the cellphone at least 1.5 cm away from the body.
