5.3 Write message

You can select "Messages\Write new SMS/MMS" from the main menu or access from widget 📵 to write text/multimedia message. For dual SIM model, you can type a message and select to send it to a recipient in either the SIMI or SIM2 directory (1). One or more recipients can be added from contact list and you can remove a recipient by pressing Delete key. Press "Contacts" through key to multi-select recipients from Contacts.

An SMS will be converted to MMS automatically when images, videos, audio, slides or attachments are inserted; Subject, CC/BCC/email address is added; or the message contains more than 8 pages of text.

An SMS message of more than a certain number of 8.2 Adding a contact characters (the number of characters depends on your language) will be charged as several SMS. An MMS message containing photos and/or sounds may also be billed as more than one message. Specific letters (accent) will increase the size of the SMS, this may cause multiple SMS to be sent to your recipient.

Your phone has an email client with the settings pre-defined for a few popular email services like - Google Mail, Yahoo, AOL, etc. Besides this, you can set up other POP3 or IMAP4 email accounts that you may be using
