Equipment Authorization Division
Office of Engineering and Technology
Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

Ref: FCC ID: RAD366

Dear Sirs:

TCT Mobile Limited. requests acceptance of the labeling proposal described below for GSM fixed wireless phone bearing FCC identifier RAD366.

The subject GSM fixed wireless phone are compact handheld models as shown in figure 1, authorized under 47CFR Part 22H&24E for GSM mobile services.

Figure 1.

Because the majority of the GSM fixed wireless phone housing is composed of indicators, display screen and keys, there is extremely limited space available to attach the required label carrying the FCC identifier. TCT Mobile Limited. proposes placing the label carrying the FCC identifier inside product body as shown in figure 2.

Figure 2.

The consumer packaging for these models is a "gift box" which does not allow the GSM fixed wireless phone to be seen at time of purchase. In order to meet the requirements of

TCT Mobile Limited

47CFR Part 2.925 (d), TCT Mobile Limited. will add the FCC identifier "RAD366" to the outside of the consumer "gift box" packaging.

Thank you for your attention to this matter.

Yours Sincerely,

A handwritten signature in black ink, reading "Zhi Zhou Gong". The signature is written in a cursive, flowing style. Below the signature is a horizontal line.

Zhizhou Gong
Project Engineer
