Your phone is equipped with a weather function for consulting up to

You can access this feature from the main menu by selecting"Weather"

2	Getting started
---	-----------------

2.I Set-up

Removing or installing the back cover

Inserting or removing the SIM card

You must insert your SIM card to make phone calls. Please power off your phone and remove battery before inserting or removing the SIM

Place the SIM card with the chip facing downwards and slide it into its housing. Make sure that it is correctly inserted. To remove the card, press and slide it out.

Installing or removing the battery

Insert and click the battery into place, then close the telephone cover Unclip the cover, then remove the battery

Your mobile phone has a built-in alarm clock with a snooze feature. You can set up to five separate alarms and choose whether or not the alarm should repeat.

Access this feature by selecting "Tools\Calculator" from the main

13.3 Calendar..

Once you enter this menu from the main menu, there is a monthly-view calendar for you to keep track of important meetings, appointments, etc. Days with events entered will be marked in color

13.4 Call filter.....

You can create Blacklist and Whitelist for incoming call.

13.5 Notes.... You can create a note in text format by accessing "Tools\Notes" from the main menu

I3.6 Bluetooth[™]

Access this feature by pressing "Menu" through Left softkey from the Home screen to enter the main menu, then selecting "Tools\ Bluetooth"

13.7 Wi-Fi

To access this function, press "Menu" to enter the main menu, and select 🔗

Charging the battery

Connect the battery charger to your phone and outlet respectively.

To reduce power consumption and energy waste, when battery is fully charged, disconnect your charger from the phone; switch off Bluetooth and running applications in the background when not in use, reduce the backlight time, etc.

2.2 Power on your phone

Hold down the - key until the telephone powers on.

2.3 Power off your phone

Hold down the - key from the Home screen

Dial the desired number then press the - key to place the call. The number you entered can be saved to Contacts by selecting "Save". If you make a mistake, you may press of key to delete the incorrect digits one by one, or you may press and hold @ key to delete all.

To hang up the call, press the - key.

13.8 Tethering.....

Tethering is a method for connecting a computer or other devices to the internet via an internet-capable mobile phone.

Access this feature by pressing "Menu" through Left softkey from the Home Screen to enter the main menu, then selecting "Tethering".

13.9 World clock...

The World clock shows current local time and the time zone in different cities. You may view up to 3 cities.

3.0 Stopwatch.

TCT Mobile (US), Inc. Warranty.....

TCT Mobile (US), Inc. warrants to the original retail purchaser of this wireless device that should this product or part thereof during normal consumer usage and condition be proven to be defective in material or workmanship that results in product failure within the first twelve (12) months from the date of purchase as shown on your original sales receipt from an authorized sales agent. Such defect(s) will be repaired or replaced (with new or rebuilt parts) at the company's option without charge for parts or labor directly related to the defect(s).

Batteries power adapters and other accessories sold as in box items are also warranted against defects and workmanship that results in product failure within the first six (6) months period from the date of purchase as shown on your original sales receipt. Such defect(s) will be repaired or replaced (with new or rebuilt parts) at the company's option without charge for parts or labor directly related to the

The limited warranty for your wireless device will be voided if any of the following conditions occur:

Non-compliance with the instructions for use or installation, or with technical and safety standards applicable in the geographical area

where your phone is used: Connection to any equipment not supplied or not recommended by TCT Mobile (US), Inc.;

Modification or repair performed by individuals not authorized by TCT Mobile (US), Inc. or its affiliates

Changes to the device operating system by the user or third party

Acts of god such as inclement weather, lightning, power surges, fire,

humidity, infiltration of liquids or foods, chemical products, download of files, crash, high voltage, corrosion, oxidation; Removal or altering of the wireless device's event labels or serial numbers (IMEI):

Damage from exposure to water or other liquids, moisture, humidity, excessive temperatures or extreme environmental conditions, sand excess dust and any condition outside the operating guidelines;

Safety and use.....

Ve recommend that you read this chapter carefully before using your nobile phone. The manufacturer disclaims any liability for damage, which may result as a consequence of improper use or use contrary to the nstructions contained herein TRAFFIC SAFETY

Given that studies show that using a mobile phone while driving a vehicle constitutes a real risk, even when the hands-free kit is used (ca kit headset) drivers are requested to refrain from using their mobile one when the vehicle is not parked. Check the laws and regulation the use of wireless mobile phones and their accessories in the areas here you drive. Always obey them. The use of these devices may be ed or restricted in certain area

When driving, do not use your mobile phone and headphone to listen to music or to the radio. Using a headphone can be dangerous and forbidden in some areas

When switched on, your mobile phone emits electromagnetic waves that can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem: do not place your mobile phone on top of the dashboard or within

an airbag deployment area. check with your car dealer or the car manufacturer to make sure that

the car's electronic devices are shielded from mobile phone RF energy.

CONDITIONS OF USE:

You are advised to switch off the mobile phone from time to time to optimize its performance

emember to abide by local authority rules of mobile phone use on aircrafts

Operational Warnings: Obey all posted signs when using mobile devices in public areas.

Follow Instructions to Avoid Interference Problems: Turn off your mobile device in any location where posted notices instruct you to do so. In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Defects in appearance, cosmetic, decorative or structural items such as framing and non-operative parts; Damage as result of physical abuse regardless of cause.

There are no express warranties, whether written, oral or implied, other than this printed limited warranty or the mandatory warranty provided by your jurisdiction. In no event shall TCT Mobile (US), Inc. or any of its iliates be liable for incidental or consequential damages of any nature tsoever, including but not limited to commercial loss, to the full extent those damages can be disclaimed by law. Some states do not allow the exclusion or limitation of incidental or consequential damages, o mitation of the duration of implied warranties, so the preceding imitations or exclusions may not apply to you.

How to obtain Support: Contact the customer care center by calling (877-702-3444) or going to (http://www.alcatelonetouch.com/usa/). W ave placed many self-help tools that may help you to isolate the problem and eliminate the need to send your wireless device in for service. In the case that your wireless device is no longer covered by this limited warranty due to time or condition, you may utilize our out of warranty repair options.

How to obtain Hardware Service within the terms of this warranty; Create a user profile (alcatel.finetw.com) and then create an RMA for the fective device. Ship the device with a copy of the original proof of purchase (e.g. original copy of the dated bill of sale, invoice) with the wner's return address (No PO Boxes accepted), wireless carrier's name, alternate daytime phone number, and email address with a compl problem description. Only ship the device. Do not ship the SIM card, nemory cards or any other accessories such as the power adapter. You must properly package and ship the wireless device to the repair center. CT Mobile (US), Inc. is not responsible for devices that do not arrive at the service center or are damaged in transit. Insurance is recommended with proof of delivery. Upon receipt, the service center will verify the warranty conditions, repair, and return your device to the address provided in the RMA. Check the warranty repair status by going online with the RMA number on web portal.

mobile phones can interfere with other electrical or electronic devices, or equipment using radio frequency Switch the mobile phone off when you are near gas or flammable liquids. Strictly obey all signs and instructions posted in a fuel depot, gas

Switch the mobile phone off when you are in health care facilities, except in

designated areas. As with many other types of equipment now in regular use.

station, or chemical plant, or in any potentially explosive atmosphere When the mobile phone is switched on it should be kept at least 15 cm. from any medical device such as a pacemaker, a hearing aid or insulin pump. In particular when using the mobile phone you should hold it against the ear on the opposite side to the device, if any.

Read and follow the directions from the manufacturer of your implantable medical device. If you have any questions about using your mobile device with your implantable medical device, consult your healthcare provider.

To avoid hearing impairment, answer the call before holding your mobile phone to your ear. Also move the handset away from your ear while using the "hands-free" option because the amplified volume might cause hearing damage.

It is recommended to have proper supervision while small children use your mobile phone.

When replacing the cover please note that your mobile phone may contain substances that could create an allergic reaction. Always handle your mobile phone with care and keep it in a clean and dust-free place

Do not allow your mobile phone to be exposed to adverse weather or environmental conditions (moisture, humidity, rain, infiltration of liquids, dust, sea air, etc.). The manufacturer's recommended operating temperature range is -10°C (14°F) to +55°C (131°F) (the max value depends on device, materials and housing paint/texture). Over 55°C (131°F) the legibility of the mobile phone's display may be mpaired, though this is temporary and not serious.

Do not open or attempt to repair your mobile phone yourself. Do not drop, throw or try to bend your mobile phone. Do not paint it

Your mobile phone should not be disposed of in a municipal waste. Please check local regulations for disposal of electronic products. Remember to make back-up copies or keep a written record of all important information stored in your mobile phone

Some people may suffer epileptic seizures or blackouts when exposed to flashing lights, or when playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout. If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult your doctor before playing video games on your mobile phone or enabling a flashing-lights feature on your mobile phone. Parents should monitor their children's use of video games or other features that incorporate flashing lights on the mobile phones. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or nuscle twitching, loss of awareness, involuntary movements, or disorientation. To limit the likelihood of such symptoms, please take the following safety precautions:

Play at the farthest distance possible from the screen. When you play games on your mobile phone, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, or other musculoskeletal disorders:

Take a minimum of a 15-minute break every hour of game playing. If your hands, wrists, or arms become tired or sore while playing, stop and rest for several hours before playing again.

If you continue to have sore hands wrists or arms during or after playing, stop the game and see a doctor.

PROTECT YOUR HEARING

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.

PRIVACY:

Please note that you must respect the laws and regulations in force in your jurisdiction or other jurisdiction(s) where you will use your mobile phone regarding taking photographs and recording sounds with your mobile phone. Pursuant to such laws and regulations, it may be strictly forbidden to take photographs and/or to record the voices of other people or any of their personal attributes, and reproduce or distribute

BADIO WAVES

THIS MOBILE PHONE MEETSTHE GOVERNMENT'S REQUIREMENTS FOR EXPOSURE TO RADIO WAVES.

Your mobile phone is a radio transmitter and receiver. It is designed and nufactured not to exceed the emission limits for exposure to radio frequency (RF) energy. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. These guidelines include a substantial safety margin designed to ensure the safety of all persons, regardless of

The exposure standard for mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by public authorities such as the Federal Communications Commission of the US Government (FCC), or by Industry Canada, is 1.6 W/kg averaged over 1 gram of body tissue. Tests for SAR are conducted using standard operating positions with the mobile phone transmitting at its highest certified power level in all tested frequency

Although the SAR is determined at the highest certified power level, the actual SAR level of the mobile phone while operating can be well below the maximum value. This is because the mobile phone is designed to operate at multiple power levels so as to use only the power required to reach the network in general the closer you are to a wireless base station antenna the lower the power output of the mobile phone. Before a mobile phone model is available for sale to the public, compliance with national regulations and standards must be shown. The highest SAR value for this model mobile phone when tested is 0.7 W/Kg for use at the ear and 1.08 W/Kg for use close to the body. While there may be differences between the SAR levels of various mobile phones and at various positions, they all meet the

- Make sure your SIM card is not broken
- Make sure your SIM card is inserted properly
- Import all contacts stored in SIM card to phone

The sound quality of the calls is poor

Make sure that your SIM card contacts are not full; delete some files or save the files in the phone contacts (i.e. your professional or personal directories)

My callers are unable to leave messages on my voicemail

· Contact your network operator to check service availability

government requirement for RF exposure. For body-worn operation, the mobile phone meets ECC RE exposure guidelines provided that it is used with a non-metallic accessory with the handset at least 1.0 cm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines

Additional information on SAR can be found on the Cellular Telecommunications & Internet Association (CTIA) Web site: http://www. phonefacts net

The World Health Organization (WHO) considers that present scientific information does not indicate the need for any special precautions for use of mobile phones. If individuals are concerned, they might choose to limit their own or their children's RF exposure by limiting the length of calls, or using "hands-free" devices to keep mobile phones away from the head and body. (fact sheet n° 193), Additional WHO information about electromagnetic fields and public health are

available on the following website: http://www.who.int/peh-emf. lote: This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected

Consult the dealer or an experienced radio/ TV technician for help. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

For the receiver devices associated with the operation of a licensed radio service (e.g. FM broadcast), they bear the following statement: This device complies with Part 15 of the ECC Rules Operation in

subject to the condition that this device does not cause harmful interference

For other devices, they bear the following statement:

Hearing Aid Compatibility

Your mobile phone is rated: «For Hearing Aid», to assist hearing device users in finding mobile phones that may be compatible with their hearing devices.

This device is HAC M3 compatible, Reference ANSI C63, 19-2007 For more information please refer to «Hearing Aid Compatibility with Mobile Phones» leaflet or visit our website http://www. alcatelonetouch.com FCC ID: RAD418

General information

Website: www.alcatelonetouch.com

Hot Line Number: In the United States call 877-702-3444 for technical support.

On our Internet site, you will find our FAQ (Frequently Asked Questions) section. You can also contact us by e-mail to ask any uestions you may have.

An electronic version of this user guide is available in English and other languages according to availability on our server: www.alca

Your mobile phone is a transceiver that operates on GSM Quadband (850/900/1800/1900 MHz) or UMTS Triband (850/1900 MHz).

Protection against theft⁽¹⁾

Your mobile phone is identified by an IMEI (mobile phone serial number) shown on the packaging label and in the product's memory. We recommend that you note the number the first time you use your mobile phone by entering *#06# and keep it in a safe place. It may be requested by the police or your operator if your mobile phone is stolen

Disclaime

There may be certain differences between the user manual description and the mobile phone's operation depending on the software release of your mobile phone or specific operator services. TCT Mobile shall not be held legally responsible for such differences. if any, nor for their potential consequences, which responsibility shall be borne by the operator exclusively.

Contact your network operator for service availabilit

The phone cannot be detected by others via Bluetooth

- Make sure that Bluetooth is turned on and your phone is visible to other users
- Make sure that the two phones are within Bluetooth's detection

How to make your battery last longer

- Make sure you follow the complete charge time (minimum 3 hours) After a partial charge, the battery level indicator may not be exact. Wait for at least 20 minutes after removing the charger to obtain an exact indication
- Switch on the backlight upon request
- Extend the email auto-check interval for as long as possible
- Update news and weather information on manual demand, or increase their auto-check interval
- Deactivate Bluetooth when not in use
