Re: Measurement facility located at Academy of Telecommunication Research, MIIT, Beijing

Date of Listing: September 30, 2014

Dear Sir or Madam:

Your request for registration of the subject measurement facility has been reviewed and found to be in compliance with the requirements of Section 2.948 of the FCC rules. The information has, therefore, been placed on file and the name of your organization added to the list of facilities whose measurement data will be accepted in conjunction with applications for Certification under Parts 15 or 18 of the Commission's Rules. Please note that the file must be updated for any changes made to the facility and the registration must be renewed at least every three years.

Please also note that this registration does not recognize the measurement facility as an accredited testing laboratory that is accepted to perform testing for products authorized under the Declaration of Conformity (DoC) process. In order to test products subject to DoC authorization process, a measurement facility must: (1) be accredited by an accreditation body recognized by the FCC to accredit testing laboratories in the country in which the testing laboratory is located and (2) be recognized by the FCC and appear on the FCC website that identifies testing laboratories recognized by the FCC as accredited.

Measurement facilities that have indicated that they are available to the public to perform measurement services on a fee basis may be found on the FCC website www.fcc.gov under E-Filing, OET Equipment Authorization Electronic Filing, Test Firms.

Sincerely,

Dave Galosky
Electronics Engineer
