RE: Change in Identification for existing FCC ID: PPD-AR5BMB82 to RAR20180002 as per Title 47 chapter I part 2.933 (b).

To Whom It May Concern,

The module FCC ID: PPD-AR5BMB82 a radio module tested under parts 15C and 15E and received an FCC Grant on Jun 5. 2008.

BelAir Networks is submitting for approval the subject mini-PCI form factor module for a change in identification as per part 2.933 for marketing advantages.

A letter of agent authorization from the original manufacturer (Atheros) is included as part of this submission.

The module bearing the modified identification is exactly the same as the original and will be installed in a BelAir Networks product.

BelAir Networks will use the module **as is**, with no modifications, and used as per the subject Grant.

An FCC ID will be placed on the module, located as described in the label information document, included as part of this submission.

Thus, the original test results continue to be representative of and are applicable to the equipment bearing the changed identification.

Photographs showing the exterior appearances of the subject module are included as part of the submission.

Sincerely

A handwritten signature in black ink, reading "Marcel Chenier". The signature is fluid and cursive, with the first name "Marcel" being more prominent.

Marcel Chenier
Senior Vice President of Engineering.
