

Description of Permissive Change

The application is prepared for FCC class II permissive change by adding frequency band and mode through software enabling to its original parent application. The adding frequency band is from 5.26 to 5.32GHz, 5.5 to 5.720GHz for this device.

The device, original and updated versions, are electrically identical in all aspects except adding 5260 ~ 5320MHz and 5500 ~ 5720MHz band.
